CONTENTS

EDITORIALS

- Publish or Perish** 1
William Silen, MD, Boston
- Surgery in the Veterans Administration** 2
H. Brownell Wheeler, MD, West Roxbury, Mass
- Life and Limb** 3
- PAPERS READ BEFORE THE ANNUAL MEETING OF THE SOUTHERN CALIFORNIA CHAPTER OF THE AMERICAN COLLEGE OF SURGEONS, PALM SPRINGS, CALIF, JAN 15, 1971**
- Is Peritoneal Lavage for the Diagnosis of Hemoperitoneum Safe?** 4
H. Hollis Caffee, MD, and John R. Benfield, MD, Torrance, Calif
The benefits derived outweigh the risks.
Proper precautions avoid complications.
- Candida Septicemia** 8
Richard J. Williams, MD; James G. Chandler, MD; and Marshall J. Orloff, MD, San Diego, Calif
Multiple transfusions, indwelling venous catheters and broad-spectrum antibiotics all played a part.
- A Plethora of Primary Hyperparathyroidism** 12
Robert A. Preisman, MD, and John H. Mehnert, MD, San Diego, Calif
In 12,436 calcium determinations 16 cases of primary hyperparathyroidism discovered.
- Surgery for Thymic Tumors** 14
Howard Braitman, MD; Wei-i Li, MD; Christian Herrmann, Jr., MD; and Donald G. Mulder, MD, Los Angeles
Experience with 33 patients, one half with myasthenia gravis.
- Healing of Colonic Anastomoses Following Resection for Experimental "Diverticulitis"** 17
Tatsuo Yamakawa, MD; C. Snyder Patin; Stuart Sobel; and Leon Morgenstern, MD, Los Angeles
Delay in return to normal histology and rate of collagen synthesis seen in experimental group.
- Cholechooduodenal Fistula Secondary to Duodenal Ulcer: A New Surgical Approach** 21
George R. Wagner, MD, and Edward Passaro, Jr., MD, Los Angeles
Operation indicated for the ulcer, not the fistula.
- Cholangiocarcinoma and Operative Cholangiography** 25
David D. Reeder, MD; Raymond J. Linovitz, MD; Daniel Torrance, MD; Harold A. Neibling, MD; Frank Hirose, MD; and John R. Benfield, MD, Torrance, Calif
Cholangiographic mucosal irregularity or ductal stenosis in absence of prior operation suggest the diagnosis.
- Normal or "Negative" Percutaneous Cholangiogram** 31
Marvin James, MD, La Mesa, Calif
Progress reported towards eliminating unproductive abdominal and biliary tract explorations.
- Intravenous Regional Anesthesia** 34
Donald O. Costley, MD, and Paul H. Lorhan, MD, Torrance, Calif
A high success rate with proper dose and volume of solution.

Contents continued on p 6A.

lores Isham, Ruth Kettleison, Elizabeth Sal-
man, Shirley Ures, Patricia Washington,
Roletha Watkins

Please address communications concerning
accepted or published communications to:
AMA Specialty Journals, 535 N Dearborn St,
Chicago, Ill 60610.

Advertising Offices.—535 N Dearborn St, Chi-
cago 60610, Area Code 312, 527-1500; and
122 E 42nd St, New York 10017, Area Code
212, 867-6640.

Advertising Principles.—Each advertisement
in this issue has been reviewed and complies
with the principles governing advertising in
AMA scientific publications. A copy of these
principles is available upon request.

Subscription Rates.—The yearly rate of the
ARCHIVES OF SURGERY is as follows: United
States, US Possessions, Canada, and Mexico
—one year, \$12; two years, \$18; all other
countries—one year, \$25; two years, \$35.
Special price to residents, interns, and medi-
cal students in the United States, US Posses-
sions, Canada, and Mexico—one year, \$6.
Single copies of the current year and the
immediate past year will be \$1.25 each and
may be ordered from the Circulation Depart-
ment, American Medical Association, 535 N
Dearborn St, Chicago 60610. Back issues
older than two years are available through
Walter J. Johnson, Inc., 115 Fifth Ave, New
York 10003.

Change of Address.—Please notify the pub-
lisher at least six weeks in advance, include
both old and new address, and a mailing
label taken from the most recent copy. In-
clude your new zip code number.

The ARCHIVES OF SURGERY is published
monthly by the American Medical Associa-
tion, 535 N Dearborn St, Chicago 60610, and
is an official publication of the Association.
Second class postage paid at Chicago.

Contents continued from p 4.

**Experimental Development of the Ascending
Aorta-Coronary Artery Bypass** 36

Akio Wakabayashi, MD; John E. Connolly, MD;
Roy T. Adachi, MD; R. Michael Black, MD;
Edward A. Stemmer, MD; and Jack I. Eisenman, MD, Irvine, Calif

Autologous saphenous vein worked better
than autologous artery.

Gallbladder Disease in Southwestern American Indians 41

Bruce D. Nelson, MD, Torrance, Calif;
John Porvaznik, MD, Tuba City, Ariz;
and John R. Benfield, MD, Torrance, Calif

A high prevalence of gall stones and
of gallbladder cancer.

**Surgical Management of Multiple Aneurysms
of the Sinuses of Valsalva** 44

Richard J. Cleveland, MD; Ronald J. Nelson, MD;
Arnold L. Nedelman, MD; Michael Criley, MD;
and Maurice Lippmann, MD, Los Angeles

A prosthetic ball-valve placed to occlude
the ostia.

**Plasma Oncotic Variation and Cardiopulmonary
Independence in Normal Humans** 48

Alan Marty, MD; LCDR Cleve Trimble, MC, USNR;
LCDR Taylor Cook, MC, USN; Max Trummer, MD;
Benjamin W. Zweifach, PhD; and Marcos Intaglietta, PhD,
San Diego, Calif

Plasma oncotic pressure rose on ambulation
and varied unpredictably with bedrest.

Neurogenous Neoplasms of Major Nerves of Face and Neck 51

Alfred D. Katz, MD, Los Angeles;
Victor Passy, MD, Irvine, Calif; and
Leo Kaplan, MD, Los Angeles

Since most are benign, nerve of origin should be preserved.

**The Peutz-Jeghers Syndrome: Report of Two Cases,
One With 30-Year Follow-Up** 57

James E. McKittrick, MD; Walter M. Lewis, MD;
Wilton A. Doane, MD; and Walter H. Gerwig, Jr., MD,
Santa Barbara, Calif

General outlook is good despite need
for multiple operations.

ORIGINAL ARTICLES

Experiences With Pycocystis 63

Knute Guerrier, MD; David J. Albert, MD;
and Lester Persky, MD, Cleveland

Twenty-four of 128 patients with supravescical
urinary diversion in whom bladder left in situ
later required cystectomy.

**Changes in Serum Creatine Phosphokinase Activity
Following Thoracic, Cardiac, and Abdominal Operations** 66

Sewell H. Dixon, Jr., MD; James C. A. Fuchs, MD;
and Paul A. Ebert, MD, Durham, NC

Prolongation of usual postoperative increase in SCPK
activity suggests myocardial infarction.

**Ureterosigmoidostomy and Neoplasms of the Colon: Report of a
Case and Review of the Literature** 69

Michael J. Haney, MD, and William C. McGarity, MD, Atlanta

Fixation and protrusion at the anastomotic site
may cause these lesions.

Contents continued from p 5

Emergency Portal Decompression: A Review of 31 Patients Operated Upon via a Midline Approach	73
Ronald J. Baird, MD; Hernando Tutassaura, MD; and Robert Miyagishima, MD, Toronto	
Operation within 48 hours of onset of hemorrhage successful in 71%.	
Surgical Treatment of Hydatid Cyst of the Liver	76
Moshe Dinsman, MD; Chaim Chaimoff, MD; Yaacov Woloch, MD; and Ernest Lubin, MD, Petah Tikva, Israel	
Resection is the treatment of choice.	
The Common Duct After Cholecystectomy: Interval Report	79
Robert Edmunds, MD; Saul Katz, MD; Vincente Garciano, MD; and Nathaniel Finby, MD, New York	
In rare instances only does the common duct dilate significantly in later years.	
Triple Aorto-Coronary Vein Bypass as Treatment for Coronary Insufficiency	82
Robert J. Flemma, MD; W. Dudley Johnson, MD; and Derward Lepley, Jr., MD, Milwaukee	
Further progress toward total direct flow revascularization of coronary system.	
Genetic Predictability in Breast Cancer Risk: Surgical Implications	84
Henry T. Lynch, MD, and Anne J. Krush, MS, Omaha	
Three patients with strong family histories provoke discussion of possible prophylactic measures.	
EXPERIMENTAL SURGERY	
Biological Evaluation of a Disposable Membrane Oxygenator	89
Malcolm Douglas, MD; Dietrich Birnbaum, MD; and Ben Eiseman, MD, Denver	
Excellent for prolonged partial respiratory support in dogs.	
In Vivo Cinephotographic Analysis of Aortic and Major Arterial Flow Patterns	93
William H. Rogers, MD; Arthit Rukskul, MD; Rudolph C. Camishion, MD; and Richard T. Padula, MD, Philadelphia	
In vivo observation of sites of intra-aortic stasis and trauma.	
CLINICAL NOTES	
Gas Gangrene Complicating Aortic Dissection: Report of a Case	96
Manakavalan J. S. Prabhakar, MD; Marshall E. Redding, MD; Constantine E. Anagnostopoulos, MD; and C. Frederick Kittle, MD, Chicago	
A fatal complication involving the buttock.	
Pancreatic Islet Hyperplasia as a Cause of a Severe Ulcer Diathesis	98
Donald Hight, MD; Lewis P. James, MD; and M. Reza Jahadi, MD, Worcester, Mass	
A case of Z-E syndrome due to hyperplasia of islet tissue.
