

## ORIGINAL ARTICLES

- Cardiac Output and Pulmonary Wedge Pressure** 1161  
Dhiraj M. Shah, MD; Bruce D. Browner, MD; Robert E. Dutton, MD;  
Jonathan C. Newell, PhD; Samuel R. Powers, Jr, MD, Albany, NY  
This study indicates that cardiac output is the most important criterion for adequate hemodynamic resuscitation of severely traumatized patients.
- Acute Potassium Deficit: Its Relationship to Polyuria in the Postoperative Period** 1165  
Wayne B. Glazier, MD, William Silen, MD, Boston  
Acute, otherwise unexplained, polyuria secondary to glycosuria in the postoperative patient may be the result of transient glucose intolerance caused by potassium deficiency.  
Editorial comment by Samuel R. Powers, Jr, MD, Albany, NY
- A Trial of Cephalothin Sodium in Colon Surgery to Prevent Wound Infection** 1169  
Jonathan G. W. Burdon, MB; Peter J. Morris, MD, PhD;  
Philip Hunt, MB; James M. Watts, MB, Melbourne  
Meticulous attention to technique to avoid contamination is still the most important factor in prevention of wound infection.  
Editorial comment by Hiram C. Polk, Jr, MD, Louisville
- Neoplasms of the Large Bowel Following Ureterosigmoidostomy** 1174  
Gamini S. Sooriyaarachchi, MB, BS, MRCP, DCH;  
Robert O. Johnson, MD; Paul P. Carbone, MD, Madison, Wis  
Convincing evidence that ureterosigmoidostomy is associated with a greater risk of large bowel cancer.
- Laparoscopy for Diagnosis and Treatment of Abdominal Pain in Adolescent Girls** 1178  
Sylvain Kleinhaus, MD; Karen Hein, MD; Michael Sheran, PA;  
Scott J. Boley, MD, Bronx, NY  
Diagnostic value of laparoscopy is demonstrated in a group of patients in whom differentiation between functional and organic abnormalities is a problem.
- Small Paraduodenal Hernias** 1180  
Herbert Freund, MD, Yacov Berlatzky, MD, Jerusalem  
Five patients, aged 3½ to 79: 3 were obstructed, 2 asymptomatic.
- Principles of Abdominal Wound Closure**  
**I. Animal Studies** 1184  
Richard J. Sanders, MD; David DiClementi; Karen Ireland, MD, Denver  
Study of abdominal wound strength in rats showed that closures with large tissue bites and loose ties gave the best results.
- II. Prevention of Wound Dehiscence** 1188  
Richard J. Sanders, MD, David DiClementi, Denver  
Wound dehiscence is a technical failure, not a tissue failure.
- SPECIAL ARTICLE**  
**Pulmonary Aspiration: An Update** 1192  
Richard H. Stewardson, MD, Lloyd M. Nyhus, MD, Chicago  
A review of the problems of pulmonary aspiration prevention and treatment.
- CLINICAL NOTES**  
**Pancreaticoduodenal Artery Aneurysm Simulating Carcinoma of the Head of the Pancreas** 1201  
Michael Scheffan, MD; Saadoon Kadir, MD;  
Christos A. Athanasoulis, MD; Stephen E. Hedberg, MD, Boston  
Preoperative angiography would have led to a correct diagnosis in this patient with obstructive jaundice.
- Large Branchiogenic Cyst in a Neonate Producing Upper Airway Obstruction** 1205  
Juda Z. Jona, MD; Marvin Glicklich, MD; Roger D. Cohen, MD, Milwaukee  
Operative removal of the cyst was necessary shortly after birth because of upper airway compression.
- Tension Pneumomediastinum** 1212  
Gregory Van Stiegmans, MD; Charles O. Brantigan, MD; Alan R. Hopeman, MD, Denver  
Awareness of the possibility of this condition, especially in patients being treated with mechanical ventilation, leads to prompt mediastinotomy.
- Stenosis of the Small Intestine Due to Nonocclusive Ischemic Disease** 1216  
Pramod Thaker, MD; Leonard Weingarten, MD; Ira H. Friedman, MD, New York  
Segmental stenosis of the jejunum produced obstruction nine weeks after an acute myocardial infarction with circulatory failure.

**Advertising Principles.**—Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

**Subscription Rates.**—The yearly rate of the ARCHIVES OF SURGERY is as follows: for members of the AMA, \$1.50, included in the annual membership dues; for non-members, \$18 for one year, \$28 for two years in the United States and US possessions; all other countries, \$28 for one year, \$38 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, \$9.

**Change of Address.**—Please notify the publisher at least six weeks in advance, include both old and new address, and a mailing label taken from the most recent copy. Include your new zip code number.

THE ARCHIVES OF SURGERY is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, and at additional mailing office.

Please address communications concerning accepted or published communications to: AMA Specialty Journals, 535 N Dearborn St, Chicago, IL 60610.

Contents continued from p 1151.

<b>Successful Simultaneous Renal Transplantation and Abdominal Aortic Aneurysmectomy</b>	1218
James Cerilli, MD; William E. Evans, MD; Patrick S. Vaccaro, MD, Columbus, Ohio The patient presented is now five years after renal transplantation, with the renal artery anastomosed to the Dacron graft after aneurysmectomy.	
<b>Serratia marcescens Pneumonia</b>	1220
Graziano C. Carlon, MD; P. C. Taylor Dickinson, MD; Paul L. Goldiner, MD; Alan D. Turnbull, MD; William S. Howland, MD, New York A more frequent problem now in the intensive care unit, in older patients who have received broad spectrum antibiotics after extensive operations.	
<b>Diastatic Perforation of the Cecum Without Distal Obstruction</b>	1227
Quentin Macmanus, MD, William W. Krippaehne, MD, Portland, Ore Rupture of a distended cecum without distal colonic obstruction in a patient eight days after aortocoronary bypass graft.	
<b>Mesenteric Vascular Occlusion Associated With Oral Contraceptive Use</b>	1231
Thomas J. Lescher, MD, C. Thomas Bombeck, MD, Chicago Infarction of a segment of jejunum due to mesenteric venous thrombosis in an otherwise normal 34-year-old woman on birth control pills.	
<b>Isolated Histiocytic Lymphoma of the Spleen Causing Fever and Hypercalcemia</b>	1233
Deborah A. Kippen, Joel B. Freeman, MD, FRCS(C), Iowa City Pseudohyperparathyroidism, suggested by hypercalcemia with a low serum parathormone level, abated after splenectomy for localized lymphoma.	
<b>Onset of Tuberculosis After Intestinal Bypass Surgery for Obesity</b>	1235
Victor L. Yu, MD, Stanford, Calif Another complication occurring with the malnutrition produced by intestinal bypass operations.	
<b>SPECIAL COMMENTARIES</b>	
<b>Can the Venous System Be Made to Act In Situ for the Arterial System?</b>	1238
Richard Warren, MD, Boston A word of caution about the revival of an old idea.	
<b>Wound Infection and Topical Antibiotics: The Surgeon's Dilemma</b>	1240
Nicholas A. Halasz, MD, San Diego The application of carefully selected topical antibiotics to surgical wounds can be expected to diminish the incidence of wound infection.	
<b>Private Beds and the British National Health Service</b>	1248
<b>TECHNIQUES</b>	
<b>Disarticulation of the Knee: A Modified Technique</b>	1250
Ernest M. Burgess, MD, Seattle Modifications in surgical techniques and prosthesis design make this an excellent level of amputation for selected amputees. Editorial comment by Richard Warren, MD, Boston	
<b>Rubber Band Ligation of Hemorrhoids</b>	1257
Marvin L. Corman, MD, Boston This technique is an effective alternative to previous methods of operative hemorrhoidectomy.	
<b>Double Gastroenterostomy Tube in Gastric Surgery</b>	1260
Harry Schanzer, MD, Bronx, NY An effective double tube that provides for both gastric decompression and enteric feeding.	
<b>Diamond-Shaped Anastomosis for Congenital Duodenal Obstruction</b>	1262
Ken Kimura, MD; Chikara Tsugawa, MD; Kyoichi Ogawa, MD; Yoichi Matsumoto, MD; Tetsuo Yamamoto, MD; Sakae Asada, MD, Kobe, Japan A technique for duodenoduodenostomy is described which provides a satisfactory stoma that functions within two or three days.	
<b>BRIEF CLINICAL NOTES</b>	
<b>Falciform Ligament: A Possible Twist?</b>	1264
Charles E. Webber, Jr, MD; Evalea Glanges, MD; Charles A. Crenshaw, MD, Fort Worth, Tex Torsion and infarction of the falciform ligament during pregnancy.	
<b>Recurrent Aortoduodenal Fistula</b>	1265
Robert G. Scribner, MD; Michael S. Baker, MD; Roy L. Tawes, MD; William H. Brown, MD; Edmund J. Harris, MD, Stanford, Calif An aortoduodenal fistula recurred even though the graft was removed, because soft tissue was not interposed between the aorta and duodenum.
