

ORIGINAL ARTICLES

- Diagnosis of Occult Familial Medullary Carcinoma of the Thyroid Using Pentagastrin** 241
James R. Starling, MD; Curtis Harris, MD; Daryl K. Granner, MD, Iowa City
The presence of this tumor requires screening of relatives by calcitonin levels and pentagastrin stimulation.
- Dopamine-Phenytoin Interaction: A Cause of Hypotension in the Critically Ill** 245
Brack A. Bivins, MD; Robert P. Rapp, PharmD; Ward O. Griffen, Jr, MD, PhD; Robert Blouin; James Bustrack, Lexington, Ky
Intravenous phenytoin should be used very cautiously in patients requiring dopamine for circulatory support.
- Epidural Injection of Local Anesthetic and Steroids for Relief of Pain Secondary to Herpes Zoster** 253
Haven M. Perkins, MD, Philip R. Hanlon, MD, Gainesville, Fla
Pain relieved and postherpetic neuralgia prevented.
- Villous Tumors of the Stomach and Small Bowel** 255
Patrick C. Freeny, MD, Thomas R. Vimont, MD, Seattle
High potential for malignancy makes surgical resection mandatory.
- Thoracic Endoscopic Sympathectomy in Palmar and Axillary Hyperhidrosis** 264
Matthias Kux, MD, Vienna
An almost forgotten method of managing hyperhidrosis is described.
- Significance of Microbial Contamination of Stored Cadaver Kidneys** 269
Charles B. Anderson, MD; Stephen D. Haid; Keith A. Hruska, MD; Edward A. Etheredge, MD, PhD, St Louis
Microbial contamination of stored kidneys occurs frequently but does not predispose to infection in recipients.
- Bile Duct Adenomas as Liver Nodules** 272
Chaidong Cho, MD; Iiga Rullis, MD; Lloyd S. Rogers, MD, Syracuse, NY
May be mistaken for metastatic nodules.
- Early Restenosis After Carotid Endarterectomy** 275
David Cossman, MD; Allan D. Callow, MD; Avrum Stein, DO; Gary Matsumoto, MD, Boston
Myointimal proliferative lesions most common.
- Mastectomy as an Adjunct to Combination Chemotherapy** 282
Don Morris, MD; Joseph Aisner, MD; E. George Elias, MD, PhD; Peter H. Wiernik, MD, Baltimore
Chemotherapy resulted in marked regression of tumor, allowing for a simpler mastectomy.
Editorial comment by Jerome J. DeCosse, MD, Milwaukee
- Coexistent Parathyroid Adenomas and Thyroid Carcinoma: Can Radiation Be Blamed?** 285
Virginia A. LiVolsi, MD, New Haven, Conn; Paul LoGerfo, MD; Carl R. Feind, MD, New York
Radiation exposure found in only one of 40 patients with both problems.

BRIEF CLINICAL NOTE

- Treatment of Necrotizing Fasciitis Caused by *Staphylococcus epidermidis*** 288
Harold R. Mancusi-Ungaro, Jr, MD, New Haven, Conn
The progress of infection and necrosis was reversed within 24 hours of application of mafenide acetate dressings and systemic antibiotic therapy with cefazolin.

EXPERIMENTAL SURGERY

- Persisting Structural Abnormalities in Liver, Kidney, and Muscle Tissues Following Hemorrhagic Shock** 289
Barbara C. George, MD; N. Thomas Ryan, PhD; William C. Ullrick, PhD; Richard H. Egdahl, MD, Boston
Structural damage repaired after three to eight days.

SPECIAL ARTICLE

- The Grimonster Symposium on the Occasion of the 50th Anniversary of the First Lumbar Sympathectomy** 295
Allan D. Callow, MD, Fiorinda A. Simeone, MD, Boston
A discussion of sympathectomy for occlusive disease.

TECHNIQUES

- Construction of Pancreaticocystogastrostomy Using an Automatic Stapling Device** 298
Larry C. Gunn, MD, Chicago
A rapid and bloodless method for internal pseudocyst drainage.
- Right Renal Vein Extension in Cadaver Kidney Transplantation** 300
John M. Barry, MD, Eugene F. Fuchs, MD, Portland, Ore
A useful technique when the renal vein is short.

THE ARCHIVES OF SURGERY is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

CONTENTS—Continued

Removal of a Thrombotic Plug From an Occluded Limb of an Aortofemoral Graft	301
Calvin B. Ernst, MD, Michael E. Daugherty, MD, Lexington, Ky Balloon catheter and endarterectomy loop used together.	
CLINICAL NOTES	
Asymptomatic Eyebrow Mass: A Rare Presenting Sign of Malignant Non-Hodgkin's Lymphoma	303
Linda H. Mosely, MD; David S. Fischer, MD; Irving M. Polayes, DDS, MD, New Haven, Conn What was thought to be a dermoid cyst was found to be a lymphoma.	
Detection of Lymphaticocutaneous Fistula by Radionuclide Lymphangiography	306
Jerry Stolzenberg, MD, Miami A simple and rapid method of diagnosis.	
Complete Obstruction of the Gastric Antrum in Children Following Acid Ingestion	308
Sachiko T. Cochran, MD; Eric W. Fonkalsrud, MD; Michael T. Gyepes, MD, Los Angeles Examples of acid ingestion sparing the esophagus and injuring the gastric antrum with delayed obstruction.	
Preduodenal Portal Vein: Two Cases With Differing Presentation	311
James C. Stevens, MD; Duncan Morton, MD; Ross McElwee, MD; Harold F. Hamit, MD, Charlotte, NC An unusual anatomical variation which represents a potential surgical hazard. Editorial comment by Robert E. Hermann, MD, Cleveland	
Sigmoid Volvulus in the Young: A Case Following Cesarean Section	316
James K. Fuller, MD, Alberto J. Larrieu, MD, Galveston, Tex This problem is not limited to the elderly.	
Oncocytoma of the Parotid Gland With Malignant Change	318
Winston Chu, MD, Joseph G. Strawitz, MD, Philadelphia Histologic transition from benign morphology to malignancy is described.	
Multiple Aneurysms in Dacron Velour Graft	320
James May, FRACS, Michael Stephen, FRACS, Sydney, Australia An example of prosthetic graft failure.	
Amebic Peritonitis Following Rupture of an Amebic Liver Abscess: Successful Treatment of Two Patients	322
Richard J. Wallace, Jr, MD; Stephen B. Greenberg, MD; Jeffrey M. Lau, MD; William P. Kalchoff, MD; David E. Mangold, MD; R. Russell Martin, MD, Houston Surgical drainage and emetine proved successful.	
Intermittent Hydronephrosis: A Cause of Abdominal Pain	329
Daniel H. Dunn, MD; Richard D. Williams, MD; Ricardo Gonzalez, MD, Minneapolis IVP is usually normal between episodes.	
Treatment and Prevention of Mobin-Uddin Umbrella Misplacement	331
Henry J. Fee, MD; John H. McAvoy, MD; Theodore X. O'Connell, MD, Los Angeles A venocavogram during insertion should eliminate this problem.	
Common Bile Duct Obstruction Associated With a Dacron H-graft Portacaval Shunt	333
Richard A. Prinz, MD, Jack Pickleman, MD, Maywood, Ill Thrombosed H-graft portacaval shunt eroded into the common bile duct.	
Tracheoesophageal Fistula Caused by Cuffed Tracheal Tube: Successful Treatment by Tracheal Resection and Primary Repair With Four-Year Follow-up	338
Alexiel S. Geha, MD, New Haven, Conn; James V. Seegers, MD; Ira J. Kodner, MD; Stephan Lefrak, MD, St Louis A definitive one-stage procedure is preferable.
