EDITORIAL

- Compensation for Volunteer Clinical Faculty** 793
Harold B. Haley, MD, Roanoke, Va

ORIGINAL ARTICLES

- Diarrhea and Colitis in Clindamycin-Treated Surgical Patients** 794
Robert E. Condon, MD, Mary Jane Anderson, RN, Wood, Wis
Colitis was not identified in 145 patients receiving clindamycin.

- Fat Necrosis of the Breast** 801
Jack E. Meyer, MD; Paul Silverman, MD; Lalita Gandbhir, MD, Walpole, Mass
In 1,500 patients having biopsies performed for potentially malignant lesions, fat necrosis was found in 0.6%.
Editorial comment by John S. Welch, MD, Rochester, Minn

- Thromboembolic Risk of Postsplenectomy Thrombocytosis** 808
Michael A. Boxer, MD; Jory Braun, MD; Leonard Ellman, MD, Boston
Many had thrombocytosis but an increased risk of thromboembolism was not demonstrated.

- Nonspecific Peritesticular Fibrosis Manifested as Testicular Enlargement: Clinicopathological Study of Nine Cases** 814
Louis H. Honoré, MB, ChB, FRCP(C), Vancouver, British Columbia
An unrecognized cause of benign testicular enlargement.
Editorial comment by Guy W. Leadbetter, Jr, MD, Burlington, Vt

- Resection of Postinfarction Left Ventricular Aneurysm With and Without Revascularization** 817
Takeshi Goto, MD; Jerome Harold Jay, MD; Michael Mendez, MD; Pablo Zubieta, MD;
Neal Vanstrom, MD; Taro Yokoyama, MD, Los Angeles
Aneurysmectomy despite low ejection fraction was performed with low risk.

- Surface Cooling (20 °C) and Circulatory Arrest in Infants Undergoing Cardiac Surgery: Results in Ventricular Septal Defect, Complete Atrioventricular Canal, and Total Anomalous Pulmonary Venous Connection** 822
John J. Lamberti, MD; Chung-Yuan Lin, MD; Anthony Cutilletta, MD; Constantine E. Anagnostopoulos, MD;
Rene A. Arcilla, MD; Robert L. Replogle, MD, Chicago
The safety of this approach in infants is described.

- Human Kidney Preservation by Flushing With Intracellular Solution and Cold Storage** 830
John M. Barry, MD; Mary Ann Farnsworth, RN; William M. Bennett, MD, Portland, Ore
Preservation can be safely extended beyond 24 hours by this method.

- Retained Intrahepatic Stones: Use of the U Tube During Repeated Nonoperative Stone Extractions** 837
H. Joachim Burhenne, MD, Vancouver, British Columbia, Harry E. Peters, MD, San Francisco
The U tube is particularly helpful if repeated stone extraction may be required.

- Severe Chest Trauma: Morbidity Implication of First and Second Rib Fracture in 120 Patients** 846
James M. Wilson, MD; Arthur N. Thomas, MD; Phillip C. Goodman, MD; Frank R. Lewis, MD, San Francisco
These fractures usually indicate severe trauma and multiple system injury.

- Surgical Treatment of the Thoracic Outlet Compression Syndrome** 850
H. Thomas Williams, MD, Noah H. Carpenter, MD, Edmonton, Alberta
The association of the thoracic outlet syndrome and carpal tunnel problems occur in some patients.

SPECIAL ARTICLE

- A Review: Lessons From an Animal Model of Intra-abdominal Sepsis** 853
John G. Bartlett, MD; Andrew B. Onderdonk, PhD; Thomas Louie, MD; Dennis L. Kasper, MD; Sherwood L. Gorbach, MD, Boston
The different types of organisms appear to play distinctive roles in the sequence of pathologic events.
Editorial comment by Andrew M. Munster, MD, Baltimore

EXPERIMENTAL SURGERY

- Cimetidine, Carbenoxolone Sodium, and Antacids for the Prevention of Experimental Stress Ulcers** 858
Richard Jay Strauss, MD; Theodore A. Stein, MS; Charlotte Mandell, MS; Leslie Wise, MD, New Hyde Park, NY
These drugs alone or in combination may be useful in preventing stress ulceration.

- Expanded Microporous Polytetrafluoroethylene as Canine Arterial Bypass or Replacement Graft** 863
Bruce D. Walley, MD; Paul M. James, Jr, MD; Jesse H. Meredith, MD; Stuart K. Todd, MD; Nicholas Ogburn, Winston-Salem, NC
A high rate of thrombosis of PTFE grafts is reported.
Editorial comment by V. L. Willman, MD, St Louis

THE ARCHIVES OF SURGERY is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

Effects of Laparoscopy on Mesenteric Blood Flow 867
 Sylvain Kleinhaus, MD; Robert Sammartano; Scott J. Boley, MD, Bronx, NY
 Increased intraperitoneal pressure as produced during laparoscopy may decrease mesenteric blood flow.

CLINICAL NOTES

Primary Liposarcoma of the Omentum 870
 John M. McAvoy, MD; Henry J. Fee, MD; John A. Roth, MD, Los Angeles; Edward A. Dainko, MD, San Bernadino, Calif
 Primary omental tumors can simulate ascites or a pancreatic pseudocyst.

Intrahepatic Bile Duct Rupture Following Blunt Abdominal Trauma 873
 A. Crane Charters, MD, Joshua Bardin, MD, La Jolla, Calif
 The liver appeared normal at initial laparotomy after injury.

Ultrasound and False Normal Oral Cholecystogram 877
 Casper S. deGraaff, MD; Alan G. Dembner, MD; Kenneth J. W. Taylor, MD, PhD, New Haven, Conn
 In three patients with normal oral cholecystograms ultrasound study indicated stones.
 Editorial comment by Robert Zeppa, MD, Miami

Breast Carcinoma in a Young Man 880
 Edward C. Saltzstein, MD, El Paso, Tex; Ali Motamen Tavaf, MD; Rocco Latorraca, MD, Milwaukee
 A 25-year-old male with a family history of carcinoma.

Adverse Effects of Calcium Administration: Report of Two Cases 882
 Graziano C. Carlon, MD; William S. Howland, MD; Paul L. Goldiner, MD; Roberta C. Kahn, MD; Giancarlo Bertoni, MD;
 Alan D. Turnbull, MD, New York
 Calcium must always be given cautiously.
 Editorial comment by Jerome H. Modell, MD, Gainesville, Fla

Reconstruction of a Large Chest Wall Defect Using Greater Omentum 886
 Elliot W. Jacobs, MD; Saul Hoffman, MD; Paul Kirschner, MD; Callisto Danese, MD, New York
 Omental flap provided an immediate, air-tight soft tissue covering over marlex mesh.

Renal Artery-Cholecystoduodenal Fistula: A Late Complication of Dacron Patch Angioplasty for Renal Artery Stenosis 888
 Richard J. Howard, MD, PhD; Jack J. Leonard, MD; Bruce D. Howard, MD, Minneapolis
 A false aneurysm developed 15 years after dacron patch insertion.

High Intramuscular Anorectal Abscess 891
 Lt Comdr Brodie Gerrard-Gough, MC, USN; Comdr Paul J. Kovalcik, MC, USN; Capt Gregory H. Cross, MC, USN, Portsmouth, Va
 Unexplained anal pain without external signs should suggest this possibility.

Severe Complications of Intralesional BCG Therapy in an Unsensitized Patient: Case Report and Clinical Implications 893
 Edward L. Felix, MD, Chicago; J. Milburn Jessup, MD; Max H. Cohen, MD, PhD, Bethesda, Md
 BCG dissemination may produce severe problems and regression of uninjected tumor.
 Editorial comment by Ralph J. Graff, MD, St Louis

Lipoma of the Colon 897
 Robert T. Gordon, MD, John M. Beal, MD, Chicago
 May cause pain, obstruction, or bleeding but is usually asymptomatic.

Flail Chest Syndrome and Pulmonary Contusion 900
 Allan M. Parham, MD; Dabney R. Yarbrough III, MD; Joseph S. Redding, MD, Charleston, SC
 Controlled mechanical ventilation still required for severe flail chest.
 Editorial comment by John B. Downs, MD, Gainesville, Fla
