

EDITORIAL

- Is Surgical Oncology Really a Specialty?** 659
Walter Lawrence, Jr, MD, Richmond, Va

SYMPOSIUM ON VASCULAR GRAFTS: CURRENT STATE OF THE ART

- Introduction to the Vascular Symposium: The Society for Vascular Surgery—The International Vascular Society** 665
Creighton B. Wright, MD, Loren F. Hiratzka, MD, Iowa City

- The Expanded Polytetrafluoroethylene Graft: Three Years' Experience With 362 Grafts** 673
Hoshe Haimov, MD; Fabio Giron, MD; Julius H. Jacobson II, MD, New York
A cumulative patency rate of 74% at one year for femoropopliteal grafts.

- Seeding Endothelium Onto Canine Arterial Prostheses: The Effects of Graft Design** 679
Malcolm Herring, MD; Austin Gardner, MD; John Glover, MD, Indianapolis
A weft-knitted Dacron graft provided the best substrate for endothelial seeding and growth.

- Current Arterial Prostheses: Experimental Evaluation by Implantation in the Carotid and Circumflex Coronary Arteries of the Dog** 687

Lester R. Sauvage, MD; Mark W. Walker, MS; Knute Berger, MD; Stephen B. Robel, MS;
Michael M. Lischko, MS; Stanley G. Yates, MS; Gordon A. Logan, MD, Seattle
Non-crimped, kink resistant, porous Dacron grafts may be best when no autogenous vessels are available.

- Use of Umbilical Vein Graft as an Arterial Substitute** 694
Eugene B. Ferris, MD, John J. Cranley, MD, Cincinnati
A cumulative patency rate of 77% at 18 months is encouraging.

- In Vivo Comparison of Replamineform, Silastic, and Bioelectric Polyurethane Arterial Grafts** 698
Loren F. Hiratzka, MD; James A. Goeken, MD, Iowa City; Rodney A. White, MD, Torrance, Calif;
Creighton B. Wright, MD, Iowa City
A unique method of studying surface healing and wall ingrowth of different biomaterials.

ORIGINAL ARTICLES

- Surgical Management of Traumatic Injuries of the Right Colon: Twenty Years of Civilian Experience** 703
Abelardo Arango, MD, Miami; Charles R. Baxter, MD, Dallas; G. Tom Shires, MD, New York
Exteriorization or diversion necessary except in the most minor injuries.
Editorial comment by Robert J. Freeark, MD, Maywood, Ill

- pH-Induced Platelet Ultrastructural Alterations: A Possible Mechanism for Impaired Platelet Aggregation** 707
Meir Djaldeiti, MD, Petah-Tiqva, Israel; Pnina Fishman; Hanna Bessler, MS, Tel Aviv, Israel;
Chaim Chaimoff, MD, Petah-Tiqva, Israel
Altered surface morphology produced by pH change may be an important factor in aggregation.
Editorial comment by Edwin W. Salzman, MD, Boston

- Predictability of Present Outcome and Future Recurrence in Acute Pancreatitis** 711
Bhagwan Satiani, MB, BS, H. Harlan Stone, MD, Atlanta
Respiratory complications have become the most common cause of death.
Editorial comment by Gardner W. Smith, MD, Baltimore

- Pediatric Appendicitis: A 20-Year Study of 1,640 Children at Cook County (Illinois) Hospital** 717
Joseph S. Janik, MD, Chicago, Hugh V. Firor, MD, Lubbock, Tex
Antibiotics and transperitoneal drains did not alter the incidence of intra-abdominal abscesses.

- Carotid Endarterectomy Shunting: Effectiveness Determined by Operative Ocular Pneumoplethysmography** 720
William Gee, MD; Kenneth M. McDonald, MD; Harry A. Kaupp, MD, Allentown, Pa
The shunt improved ipsilateral ophthalmic pressure but did not bring it to normal.

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

CHANGE OF ADDRESS: POSTMASTER, send address changes to Helen R. Mazur, Director, Circulation-Fulfillment. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

SUBSCRIPTION RATES: The rates for the ARCHIVES OF SURGERY are as follows: for members of the AMA, \$1.50, included in the annual membership dues; for nonmembers, \$24 for one year, \$40 for two years

in the United States and US possessions; all other countries, \$34 for one year, \$60 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, \$12; two years, \$20. Address all subscription communications to Circulation-Fulfillment Department. Phone: 312, 751-6079.

ADVERTISING OFFICES: 535 N Dearborn St, Chicago, IL 60610, Area Code 312, 751-6675; and 600 Third Ave, New York, NY 10016, Area Code 212, 867-6640.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

CONTENTS—Continued

Ductal Carcinoma of the Pancreas: Rationales for Total Pancreatectomy	722
Yukio Matsui, MD; Yukitoshi Aoki, MD; Osamu Ishikawa, MD; Takeshi Iwanaga, MD; Akira Wada, MD; Ryuhei Tateishi, MD; Goro Kosaki, MD, Osaka, Japan Intraductal spread or multicentric foci of tumor suggest the need for total pancreatectomy. Editorial comment by William H. ReMine, MD, Rochester, Minn	
The Gastroesophageal Scintiscan: Comparison of Methods to Demonstrate Gastroesophageal Reflux	727
George C. Hoffman, MD, FRCS, John H. Vansant, MD, MS, Norfolk, Va The scintiscan and pH studies were much less sensitive than barium swallow and esophagoscopy with biopsy.	
Thyroid Carcinoma: Immunology, Irradiation, and Lymphocytic Infiltration	729
James H. Shull, MD; Nehama Sharon, PhD; Thomas A. Victor, MD, PhD; Edward F. Scanlon, MD, Chicago Thyroiditis was more common in patients with thyroid carcinoma but no prior irradiation. Editorial comment by John S. Welch, MD, Rochester, Minn	
CLINICAL NOTES	
Jejunoaortic Fistula From Ingested Seamstress Needle	732
Ernestine Hambrick, MD, FACS; Turlapati R. Rao, MD, MS; Leonardo T. Lim, MD, FACS, Chicago Gastrointestinal bleeding was produced by an ingested foreign body.	
Spontaneous Rupture of the Liver: A Complication of Oral Anticoagulant Therapy	734
Hadi Dizadji, MD; Richard Hammer; Bernadette Strzyz, MD; John Weisenberger, MD, Chicago A massive hematoma in the right lobe of the liver led to intra-abdominal hemorrhage.	
Porcelain Appendix: A Calcified Mucocele Fractures to Produce an Acute Abdomen	736
Julian T. Buxton, Jr, MD, Charleston, SC An egg shell calcified mass was seen on plain film of the abdomen.	
Rhizopus Surgical Wound Infection Associated With Elasticized Adhesive Tape Dressings	738
E. Dale Everett, MD; Steven Pearson; Wallace Rogers, MD, Columbia, Mo An unusual fungus infection which may be associated with this dressing material.	
EXPERIMENTAL SURGERY	
Studies of Peripheral Glucose Uptake During Sepsis	740
Keith A. Wichterman, MD; Irshad H. Chaudry, PhD; Arthur E. Baue, MD, New Haven, Conn Increased glucose uptake but a normal insulin response in animals with peritonitis.	
BRIEF CLINICAL NOTES	
Experience With the Hunter-Sessions Inferior Vena Cava Balloon Occluder	746
Donovan Stiegel, MD, James F. Duesman, MD, Moline, Ill A satisfactory method for transvenous vena cava occlusion.	
Biliary Clonorchiasis	748
Michael S. Baker, MD, San Francisco; Burton H. Baker, MD, Davis, Calif; Russell Woo, MD, San Francisco During cholecystectomy worms were found in the common duct of a patient from Hong Kong.	
TECHNIQUES	
A Safe and Secure Technique of Cystic Duct Catheterization	749
Mansur Taufic, MD, Austin, Minn A flare-tip is created by heating a piece of polyethylene tubing.	
Avoiding Renal Vein Entry When Implanting the Mobin-Uddin Vena Cava Umbrella Filter	752
John K. Edoga, MD, Warren D. Widmann, MD, Morristown, NJ A Fogarty catheter is used to occlude the renal vein during filter insertion.
