

PAPERS PRESENTED AT THE SIXTH ANNUAL MEETING OF THE NEW ENGLAND SOCIETY FOR VASCULAR SURGERY, WATERVILLE VALLEY, NH, SEPT 27, 1979

- Behavior of Venous Thrombi: Historical Observations** 1151
Richard Warren, MD, Boston
- Oculopneumoplethysmography: Its Relationship to Intraoperative Cerebrovascular Hemodynamics** 1156
Patrick J. O'Hara, MD; David C. Brewster, MD; R. Clement Darling, MD;
John W. Hallett, Jr, MD, Boston
Oculopneumoplethysmography reflects a balance between severity of stenosis and adequacy of collateral flow.
- Management of Variceal Hemorrhage: Results of a Standardized Protocol Using Vasopressin and Transhepatic Embolization** 1160
Ronald M. Gembarowicz, MD; John J. Kelly, MD; Thomas F. O'Donnell, Jr, MD;
Victor A. Millan, MD; Ralph A. Deterling, MD; Allan D. Callow, MD, Boston
Two thirds of patients with acute variceal hemorrhage stopped bleeding after administration of vasopressin, plus embolization if needed.
- Matched Elastic Properties and Successful Arterial Grafting** 1166
Raphael Walden, MD; Gilbert J. L'Italien; Joseph Megerman, PhD; William M. Abbott, MD, Boston
Increased patency correlated with a decreasing disparity between host artery and graft compliance.
- Differences in Results for Aneurysm vs Occlusive Disease After Bifurcation Grafts: Results of 100 Elective Grafts** .. 1173
M. David Tilson, MD, H. C. Stansel, MD, New Haven, Conn
The differences in patients with abdominal aneurysms and occlusive disease suggest that the pathogenesis may be quite different as well.
- Clinical Experience With the Mobin-Uddin Vena Cava Umbrella Filter** 1179
James O. Menzoian, MD; Frank W. LoGerfo, MD; A. Frank Weitzman, MD; Mariano Ezepeleta, MD; Joseph C. Sequeira, MD, Boston
This filter was used with relative safety in a large number of patients.
- Below-Knee Amputation: Is the Effort to Preserve the Knee Joint Justified?** 1184
John J. Castronuovo, Jr, MD; Leland M. Deane, MD; Ralph A. Deterling, Jr, MD; Thomas F. O'Donnell, Jr, MD;
David M. O'Toole, MD; Allan D. Callow, MD, Boston
The majority of patients achieved successful rehabilitation and functional use of the knee and a prosthesis.
- ORIGINAL ARTICLES**
- Severe Upper Limb Ischemia** 1188
Frank E. Schmidt, MD, Robert L. Hewitt, MD, New Orleans
Operative arteriography was helpful in demonstrating distal patency after repair.
- Swan-Ganz Catheter: Comparison of Insertion Techniques** 1194
Alexander E. Nehme, MD, Flint, Mich
Percutaneous insertion through the subclavian or internal jugular vein is the preferred method.
- Oculoplethysmography/Carotid Phonoangiography: Its Value as a Screening Test in Patients With Suspected Carotid Artery Stenosis** 1199
Blair A. Keagy, MD; William F. Pharr, MD; David D. Thomas; Donald E. Bowes, MD, Danville, Pa
Many high grade stenoses were missed by this noninvasive test.
- Postponement of Operations: Its Prevention in Patients Found to Be Mildly Hypertensive** 1204
J. Antonio Aldrete, MD, MS, Yagoda Franatovic, MD, MS, Denver
The use of phenytoin provided greater hemodynamic stability for mildly hypertensive patients.

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

CHANGE OF ADDRESS: POSTMASTER, send address changes to Helen R. Mazur, Director, Circulation-Fulfillment. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

SUBSCRIPTION RATES: The rates for the ARCHIVES OF SURGERY are as

follows: for members of the AMA, \$1.50, included in the annual membership dues; for nonmembers, \$24 for one year, \$40 for two years in the United States and US possessions; all other countries, \$34 for one year, \$60 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, \$12; two years, \$20. Address all subscription communications to Circulation-Fulfillment Department. Phone: 312, 751-6079.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

CONTENTS—Continued

Effect of Cholecystectomy on Cold Insoluble Globulin	1207
Angela B. Robbins, MD; Jan E. Doran, PhD; Andy C. Reese, PhD; Arlie R. Mansberger, Jr, MD, Augusta, Ga A new rapid bioassay was used to show that CIG was depressed in the early hours after cholecystectomy.	
Choledochoduodenostomy: Importance of Common Duct Size and Occurrence of Cholangitis	1212
Matthew A. Kraus, MD, Stuart D. Wilson, MD, Milwaukee Cholangitis was rare but when it did occur, it was in patients with smaller common ducts.	
Indications and Accuracy of Operative Cholangiography	1214
Timothy J. Pagana, MD, LeRoy H. Stahlgren, MD, Philadelphia Routine operative cholangiography was accurate in 99% of patients.	

CLINICAL NOTES

Multiple Malignant Carcinoids of the Stomach	1219
Jerome S. Abrams, MD, Burlington, Vt Multiple gastric tumors that are argyrophil but not argentaffin with elevated gastrin levels but normal 5-HIAA level.	
Current Surgical Management of Pheochromocytoma During Pregnancy	1224
Tommy L. Fudge, MD; William M. P. McKinnon, MD; William L. Geary, MD, New Orleans Diagnosis before term allowed for successful drug control, cesarean section, and extirpation of the tumor.	
Dysphagia due to Aortic Arch Anomaly: Diagnostic and Therapeutic Considerations	1229
Howard K. Leonardi, MD; Charles Z. Naggar, MD; F. Henry Ellis, Jr, MD, PhD, Boston An example of a vascular anomaly producing symptoms in an adult.	

BRIEF CLINICAL NOTE

Liver Abscess as a Late Complication of Percutaneous Liver Biopsy	1233
Baruch Klein, MD; Uri H. Lewinski, MD; Amos M. Cohen, MD; Chaim Chaimoff, MD; Meir Djaldetti, MD, Petah-Tiqva, Israel An abscess developed one month after biopsy.	

TECHNIQUES

An Improved Technique for Needle Catheter Jejunostomy	1235
Harry M. Delany, MD, New York The use of a larger catheter allows the administration of more viscid solutions.	
En Bloc Excision of Cadaver Kidneys for Transplantation	1238
James E. Colberg, MD, Philadelphia A modified technique to preserve all vessels with in situ cooling.	

REGULAR DEPARTMENTS

Correspondence and Brief Communications	1242
Improved Femoral Incision for Arterial Bypass David V. Pecora, MD, Philadelphia . . . Arteriographic Management of Hepatic Hemorrhage Thomas Holmes Hunt, MD, Winston-Salem, NC . . . Umbilical Hernias Anthony Shaw, MD, Charlottesville, Va
