

**FESTSCHRIFT TO DR SAMUEL R. POWERS, JR**

- Dr Powers, the Man** ..... 1251  
Margrethe R. Powers, Delmar, NY
- Pancreatic Polypeptide: A Review** ..... 1256  
Janos Lonovics, MD; Peter Devitt, FRCS; Larry C. Watson, MD;  
Phillip L. Rayford, PhD; James C. Thompson, MD, Galveston, Tex  
Pancreatic polypeptide seems to be responsible for  
the cut off of pancreatic secretion after a meal.
- Syndrome of Congenital Internal Mammary-to-Pulmonary Arteriovenous Fistula  
Associated With Mitral Valve Prolapse** ..... 1265  
Lary A. Robinson, MD, David C. Sabiston, Jr, MD, Durham, NC  
This anomalous arterial connection produces a small left-to-right shunt.
- Defects in Peripheral Oxygen Utilization Following Trauma and Shock** ..... 1277  
Dhiraj M. Shah, MD; Jonathan C. Newell, PhD; Thomas M. Saba, PhD, Albany, NY  
Patients resuscitated after trauma may have a persistent  
defect in peripheral oxygen utilization.
- Reliability of Skin Testing as a Measure of Nutritional State** ..... 1284  
R. Armour Forse, MD; Nicola Christou, MD; Jonathan L. Meakins, MD, FRCS(C);  
Lloyd D. MacLean, MD, FRCS(C); Harry M. Shizgal, MD, FRCS(C), Montreal  
Persistence of the anergic state indicates lack of response to nutritional therapy.
- Protein vs Electrolytes and All of the Starling Forces** ..... 1293  
Richard M. Peters, MD, Alan R. Hargens, PhD, San Diego  
Therapy for high-permeability pulmonary edema must keep  
the pulmonary capillary pressure as low as possible.
- Membrane Defect and Energy Status of Rabbit Skeletal Muscle Cells  
in Sepsis and Septic Shock** ..... 1302  
Hana P. Illner, MD, G. Tom Shires, MD, New York  
Depolarization of the cell membrane occurred  
prior to the onset of deep hypotension.

**THE ARCHIVES OF SURGERY** (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**CHANGE OF ADDRESS: POSTMASTER**, send address changes to Lee A. Parent, Director, Circulation-Fulfillment Division. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

**SUBSCRIPTION RATES:** The rates for the ARCHIVES OF SURGERY are as

follows: for members of the AMA, \$1.50, included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, \$40 for one year, \$76 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, \$15; two years, \$28. Address all subscription communications to Circulation Fulfillment Department. Phone: 312, 751-6079.

**ADVERTISING PRINCIPLES:** Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

**CONTENTS—Continued**

**Alterations in Cell Function With Ischemia and Shock and Their Correction** ..... 1309  
Irshad H. Chaudry, PhD; Mark G. Clemens, PhD; Arthur E. Baue, MD, New Haven, Conn  
Treatment of alterations in membrane function, energy problems,  
and cell swelling is now feasible.

**Treatment of Gastric Ulcer by Parietal Cell Vagotomy and Excision of the Ulcer:  
Rationale and Early Results** ..... 1320  
Paul H. Jordan, Jr, MD, Houston  
Results were excellent to good in 87% of patients at two to five years.

**Control of Wound Healing and Scar Formation in Surgical Patients** ..... 1325  
Erle E. Peacock, Jr, MD, New Orleans  
Early results with the use of pharmacologic agents to  
control scar tissue are encouraging.

**Death After Portal Decompressive Surgery: Physiologic State, Metabolic Adequacy,  
and the Sequence of Development of the Physiologic Determinants of Survival** ..... 1330  
John H. Siegel, MD, Buffalo; Ivo Giovannini, MD, Rome; Bill Coleman;  
Frank B. Cerra, MD, Buffalo; Angelo Nespoli, MD, Milan, Italy  
Death was predicted by a reduction in vascular tone and oxygen consumption,  
and a redistribution of pulmonary blood flow.

**Past and Future Prospects of Orthoptic Liver Transplantation** ..... 1342  
Thomas E. Starzl, MD, PhD; Goran B. G. Klintmalm, MD;  
Shunzaburo Iwatsuki, MD; Carlos Fernandez-Bueno, MD, Pittsburgh  
Cyclosporin A has improved the hopes for liver transplantation.

**Transcapillary Refill in Hemorrhage and Shock** ..... 1344  
William R. Drucker, MD, Rochester, NY; Christopher D. J. Chadwick, MD, Ottawa, Ontario;  
Donald S. Gann, MD, Providence, RI  
There are two phases, the first produced by a fall in capillary hydrostatic pressure,  
and the second by return of protein to plasma by interstitial volume and pressure.
