

EDITORIAL

- The Intestinal Anastomosis With the End-to-End Stapling Instrument: Progress and Problems, 1980** 141
Leon Morgenstern, MD, Los Angeles

ORIGINAL ARTICLES

- Postoperative Intussusception in the Adult: A Previously Unrecognized Entity?** 144
Michael G. Sarr, MD; David M. Nagorney, MD; Donald C. McIlrath, MD, Rochester, Minn
Symptoms of partial upper intestinal obstruction developed five to seven days postoperatively.
- Evolution of the Age Distribution and Mortality of Acute Appendicitis** 153
Pekka Peltokallio, MD, Heikki Tykkä, MD, Helsinki
Perforation and death from appendicitis is still a problem in the older age group.
Editorial comment by Ward O. Griffen, Jr, MD, Lexington, Ky
- Malrotation of the Midgut in Infants and Children: A 25-Year Review** 158
Lt Col Richard J. Andrassy, MD, MC, USAF, G. Hossein Mahour, MD, MS, FRCS, FACS, Los Angeles
Neonatal patients have signs of high intestinal obstruction while older patients have a more chronic course.
- Feeding Jejunostomy in Patients With Neurologic Disorders** 169
James J. Matino, MD, Hartford, Conn
A Roux-en-Y feeding jejunostomy is recommended when the neurologic disease is irreversible.
Editorial comment by David M. Heimbach, MD, Seattle
- Brachial Plexus Compression: Complication of Delayed Recognition of Arterial Injuries of the Shoulder Girdle** 175
Seshadri Raju, MD, David V. Carner, MD, Jackson, Miss
An expanding false aneurysm may compress or stretch adjoining nerves.
- Limb Hemodynamics After Aortic Aneurysm Resection** 180
Kenton C. Bodily, MD; Brian L. Thiele, MD; D. Eugene Strandness, Jr, MD, Seattle
Measurement of the ankle/arm index helped to predict the presence of occlusive disease with an aneurysm.
- The Value of Ultrasound in the Diagnosis of Nonpalpable Femoral Hernias** 185
Edwin A. Deitch, MD, Mary C. Soncrant, Seattle
Ultrasonic demonstration of a space-occupying mass medial to the femoral vein was helpful.
Editorial comment by Lloyd M. Nyhus, MD, Chicago
- Staple Suturing of the Colon Above the Peritoneal Reflection** 191
Richard F. Brodman, MD, Harold R. Brodman, MD, New York
There were no anastomotic leaks in this series of stapled anastomoses.
- A Device to Simulate the Mechanical Component of Malignant Bowel Obstruction** 194
Ian D. Fraser, MB, FRCS; Robert E. Condon, MD; William J. Schulte, MD;
Jerome J. DeCosse, MD; Verne E. Cowles, Milwaukee
A silicone rubber ring simulates the progressive colon obstruction produced by a malignancy.
- Acute and Early Experimental Tricuspid Valvular Stenosis in Dogs** 201
Yasuo Morishita, MD; Robert A. Poirier, MD; James A. Terzian, MD, Syracuse, NY
Isolated tricuspid valve narrowing must be very severe to produce hemodynamic changes.
Editorial comment by Clarence S. Weldon, MD, St Louis

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

CHANGE OF ADDRESS: POSTMASTER, send address changes to Helen R. Mazur, Director, Circulation-Fulfillment. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

SUBSCRIPTION RATES: The rates for the ARCHIVES OF SURGERY are as

follows: for members of the AMA, \$1.50, included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, \$40 for one year, \$76 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, \$15; two years, \$28. Address all subscription communications to Circulation Fulfillment Department. Phone: 312, 751-6079.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

CONTENTS—Continued

Estradiol Receptor-binding Protein in Head and Neck Neoplastic and Normal Tissue	207
Agostino Molteni, MD, PhD, Chicago; Raymond L. Warpeha, MD, PhD, Loredano Brizio-Molteni, MD, Maywood, Ill; Ellen M. Fors, MS, Chicago	
The significance of estrogen receptors in these normal and neoplastic tissues is not understood.	
Polytetrafluoroethylene for Microarterial Prosthetic Grafts	211
Gordon H. Derman, MD, O. Howard Reichman, MD, Maywood, Ill	
A high patency rate was achieved in experimental animals using short segments with a 1-mm diameter. Editorial comment by V. L. Willman, MD, St Louis	
Symptoms, Stenosis, and Bruit: Interrelationships in Carotid Artery Disease	218
Thomas S. Riles, MD; Abraham Lieberman, MD; Igor Kopelman, MD; Anthony M. Imparato, MD, New York	
The absence of a bruit does not exclude high-grade stenosis or symptoms from such a lesion.	
Renal Cortical Levels of Adenosine Triphosphate: Restoration After Prolonged Ischemia by In Situ Perfusion of ATP-MgCl₂	221
Paul J. Garvin, MD; Max Jellinek, PhD; Robert Morgan, RN; John E. Codd, MD, St Louis	
Cortical ATP levels were significantly greater when ATP-MgCl ₂ was infused.	
CLINICAL NOTES	
Hyperamylasemia due to Poorly Differentiated Adenosquamous Carcinoma of the Ovary	225
Scott H. Norwood, MD; Michael J. Torma, MD; Larry J. Fontenelle, MD, Keesler AFB, Miss	
Amylase isoenzyme determination in a patient with hyperamylasemia and abdominal symptoms will help to rule out pancreatic disease.	
Pseudolymphoma of the Stomach	227
Lawrence M. Highman, MD; Floyd J. Fantelli, MD; Robert E. Hermann, MD, Cleveland	
A benign process characterized by reactive lymphoid hyperplasia.	
Intimal Breakdown Causing Failure of Human Umbilical Vein Graft	230
William E. Haun, MD; Charles O. Brantigan, MD; Robert B. Sawyer, MD, Denver	
Intimal breakdown with hemorrhage and dissection into the wall led to early failure.	
Percutaneous Transhepatic Pancreatic Vein Catheterization in Localization of Insulinoma	232
Edward Dunn, MD, Stephen Stein, MD, New Haven, Conn	
A small tumor was located preoperatively by this technique.	
Identification of a Parathyroid Adenoma by Operative Ultrasonography	234
Bernard Sigel, MD; Avram R. Kraft, MD; Lloyd M. Nyhus, MD; Julio C. U. Coelho, MD; Michael P. Gavin, MD; Dimitrios G. Spigos, MD, Chicago	
Enlarged parathyroid glands tend to be weakly echogenic in contrast to thyroid tissue, muscle and fascia.	
TECHNIQUE	
Vertebral Artery Trauma: Acute Recognition and Treatment	236
Donald E. Meier, MD; Bruce E. Brink, MD; William J. Fry, MD, Dallas	
A technique for proximal and distal ligation of the vertebral artery is presented.	
SPECIAL ARTICLE	
Aseptic Barriers in Surgery: Their Present Status	240
William C. Beck, MD, Sayre, Pa	
The barrier must be impervious to the passage of microorganisms under the conditions of the operation to be performed.	
REGULAR DEPARTMENTS	
Overseas Notes	245
Ben Eiseman, MD, <i>Coordinator</i>	
The China Syndrome William V. McDermott, MD, Boston
