

EDITORIAL

- What Is General Surgery? Who Is a General Surgeon?** 853
Gardner W. Smith, MD, Baltimore

ORIGINAL ARTICLES

- Sulfadiazine Silver-Resistant *Pseudomonas* in Burns: New Topical Agents** 854
Shanta M. Modak, PhD, Charles L. Fox, Jr, MD, New York
An analogue of nalidixic acid and its silver salt were effective both in vitro and in vivo.
- Postoperative Atelectasis: Intermittent Positive Pressure Breathing, Incentive Spirometry, and Face-Mask Positive End-Expiratory Pressure** 861
William L. Paul, MD, John B. Downs, MD, FCCP, Gainesville, Fla
Face-mask positive end-expiratory pressure was more effective in increasing functional residual capacity.
- Intraoperative Culturing During Surgery for Acute Appendicitis** 866
Maj Gregory J. Jaffers, MC, USAF, Lackland AFB, Tex, Thomas W. Pollock, MD, Brooklyn, NY
Routine intraoperative cultures were not helpful.
- Pulmonary Artery Pressure Monitoring in the Surgical Intensive Care Unit: Benefits vs Difficulties** 872
Kevin Quinn, MD, Edward J. Quebbeman, MD, PhD, Milwaukee
The information provided by this technique frequently changed the clinical diagnosis and therapy.
- Controversial Aspects of Appendicitis Management in Children** 885
Richard J. Bower, MD; Martin J. Bell, MD; Jessie L. Ternberg, MD, St Louis
Antibiotics, limited use of drains, and delayed primary closure are recommended.
- Use of Dry Human and Bovine Amnion as a Biological Dressing** 891
T. Viswanatha Rao, MS, V. Chandrasekharam, MS, Visakhapatnam, India
Dried amnion was found helpful in covering both superficial and deep burrfs.
Editorial comment by Martin C. Robson, MD, Chicago
- Mucoid Colonic Carcinoma as an Autosomal-Dominant Inherited Syndrome** 901
Daniel C. Budd, MD, David L. Fink, MD, Paterson, NJ
A family with a high incidence of colon cancer is described.
- Gastric Emptying: A Comparison of the Heineke-Mikulicz and Finney Pyloroplasties With the Ramstedt Pyloromyotomy** 907
Edwin C. James, MD, Grand Forks, ND; Peter J. Ridella, MD, C. W. Fedde, MD, Morgantown, WV; Charles K. Anderson; Mark R. Magnusson, MS; George W. Iwen, MD, Grand Forks, ND; Michael Billie, Morgantown, WV
None of these procedures was superior in these experimental animals.
- The Effect of Sensing Site on the Limb Segmental Blood Pressure Determination** 912
Ulrich K. Franzeck, MD; Eugene F. Bernstein, MD; Arnost Fronck, MD, La Jolla, Calif
Placing the sensor close to the pressure cuff is critical in obtaining accurate thigh pressure measurements.
- Enterorectal and Colorectal Anastomosis: Evaluation of Techniques Including Midtransverse or Left-Sided Colon Tube Colostomy and Pelvic Drainage** 921
John R. Hilsabeck, MD, Irvine, Calif
Suction drainage of the presacral space was associated with elimination of anastomotic leaks.

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

CHANGE OF ADDRESS: POSTMASTER, send address changes to Helen R. Mazur, Director, Circulation-Fulfillment. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

SUBSCRIPTION RATES: The rates for the ARCHIVES OF SURGERY are as

follows: for members of the AMA, \$1.50, included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, \$40 for one year, \$76 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, \$15; two years, \$28. Address all subscription communications to Circulation Fulfillment Department. Phone: 312, 751-6079.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

CONTENTS—Continued

Exteriorized Repair in the Management of Colon Injuries	926
Sister Mary Ann Lou, MD; Alfonso P. Johnson, MD; Mohammad Atik, MD; Ashis K. Mandal, MD, FRCS(C); Joseph L. Alexander, MD; Theodore L. Schlater, MD, Los Angeles The safety of exteriorization was combined with the economy of primary repair in many patients.	
CLINICAL NOTES	
Greenfield Filter in Renal Transplant Patients	930
Bruce E. Jarrell, MD; S. Szentpetery, MD; Gerardo Mendez-Picon, MD; H. M. Lee, MD; Lazar J. Greenfield, MD, Richmond, Va Caval patency is an important consideration in these patients with thromboembolism.	
Endocarditis Complicating Home Hyperalimentation	933
John E. Gatti, MD; Nathaniel Reichek, MD; James L. Mullen, MD, Philadelphia Echocardiography is indicated when catheter infection is documented.	
Is Hepatic Portal Venous Gas an Indication for Exploratory Laparotomy?	936
L. William Traverso, MD, San Bernardino, Calif The presence of gas in the portal system on an abdominal roentgenogram is an ominous sign.	
Aortoiliac-Graft Infection: Detection by Leukocyte Scan	939
Clyde A. Stevick, MD, H. Daniel Fawcett, MD, Palo Alto, Calif An indium 111 leukocyte scan indicated an abscess with the graft.	
Neutropenic Typhilitis in Adults	943
Robert W. Ikard, MD, Nashville, Tenn This may occur in patients receiving chemotherapy for lymphoma, leukemia, and other disorders.	
Vaginal Evisceration: A Case Report and Brief Review of the Literature	949
Angelos A. Kambouris, MD; Bruce H. Drukker, MD; James Barron, MD, Detroit A rare problem that may occur in postmenopausal women after vaginal operations.	
Nonaneurysmal Suppurative Aortitis	954
Joshua A. Bardin, MD; Geoffrey M. Collins, MD; Joseph B. Devin, MD; Nicholas A. Halasz, MD, San Diego There may be no evidence of aortic involvement until rupture or occlusion occurs.	
Sequence of Regional Chemotherapy and Surgery: Management of Colorectal Adenocarcinoma Confined to the Liver	959
Eugene Tilchen, MD; Yehuda Z. Patt, MD; Charles M. McBride, MD; Sidney Wallace, MD; Vincent Chuang, MD; Ciora M. Mavligit, MD, Houston Partial regression following chemotherapy allowed for complete hepatic tumor resection in three of four patients.
