

EDITORIAL

- A New Year and a New Look, but the Same Peer-Review Process** 17
Arthur E. Baue, MD, New Haven, Conn

PAPERS READ BEFORE THE ANNUAL MEETING OF THE SOUTHERN CALIFORNIA CHAPTER OF THE AMERICAN COLLEGE OF SURGEONS, NEWPORT BEACH, CALIF, JAN 23, 1982

- Gluteal Thigh Flap in Reconstruction of Complex Pelvic Wounds** 18
Bruce M. Achauer, MD; Ivan M. Turpin, MD; David W. Furnas, MD, Orange, Calif
A myocutaneous flap supplied by the inferior gluteal artery was helpful for perineal and vaginal repairs.
- Delayed Diagnosis of Breast Cancer as a Result of Normal Mammograms** 23
Barry D. Mann, MD; Armando E. Giuliano, MD; Lawrence W. Bassett, MD; Martin S. Barber, MD; Wolfgang Hallauer, MD; Donald L. Morton, MD, Los Angeles
Negative mammography reports in patients with palpable breast cancers were associated with delays in biopsy.
- Extended Axillopopliteal-Axillotibial Bypass: Valuable Adjunct to Limb Revascularization** 25
Jack H. M. Kwaan, MD, John E. Connolly, MD, Irvine, Calif
A useful technique for patients with graft infections in the groin, or previous revascularization attempts.
- Rational Approach to Treatment of Hemorrhoids Based on a Theory of Etiology** 29
James H. MacLeod, MD, Whittier, Calif
Sclerotherapy, band ligation, or cryotherapy provided good results with hemorrhoidectomy required only infrequently.
Editorial comment by Gardner W. Smith, MD, Baltimore
- Abdominal Colectomy for Chronic Encephalopathy due to Portal-Systemic Shunt** 33
Samuel B. Picone, Jr, MD; Arthur J. Donovan, MD; Albert E. Yellin, MD, Los Angeles
Colectomy is a final effort at functional rehabilitation in patients with postshunt encephalopathy.
Editorial comment by Gardner W. Smith, MD, Baltimore
- Fournier's Gangrene of the Scrotum: A Poorly Defined Syndrome or a Misnomer?** 38
Robert C. Lamb, MD, George L. Juler, MD, Long Beach, Calif
A synergistic, polymicrobial, necrotizing cellulitis of the perineum and scrotum is described.
- Biologic Behavior of Thin Malignant Melanomas With Regressive Changes** 41
Rao R. Paladugu, MD, Robert H. Yonemoto, MD, Duarte, Calif
Metastases were more frequent in thin melanomas with regressive features.
- Reduced Mortality From Bleeding Pseudocysts and Pseudoaneurysms Caused by Pancreatitis** 45
Bruce E. Stabile, MD; Samuel E. Wilson, MD; Haile T. Debas, MD, Los Angeles
Documentation by arteriography followed by operative ligation was successful in these patients.
- Abdominal Stab Wound With Omental Evisceration** 57
Marc A. Granson, MD, Arthur J. Donovan, MD, Los Angeles
Exploratory celiotomy should be done when there is omental evisceration through a stab wound.
- Melanosis Coll: Changes in Appearance When Associated With Colonic Neoplasia** 62
Leon Morgenstern, MD; Larry Shemen, MD; Warren Allen, MD; Pamela Amodeo, MA; Stephen L. Michel, MD, Los Angeles
Pigmentation was absent in neoplastic lesions.

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

SUBSCRIPTION RATES—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, one year, \$40; two years, \$76 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US

possessions, one year, \$15; two years, \$28. Address all subscription communication to American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 751-6079.

CHANGE OF ADDRESS—POSTMASTER, send address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, including both old and new addresses, and a mailing label taken from the most recent copy. Include your new zip code number.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

CONTENTS—Continued

Primary Closure of Gastroschisis: Facilitation With Postoperative Muscle Paralysis	66
Steven M. Denmark, MD, Keith E. Georgeson, MD, Loma Linda, Calif	
A high rate of safe primary fascial closure was achieved.	
Surgical Management of Subaortic Stenosis	79
Hannibal Edwards, MD, Donald G. Mulder, MD, Los Angeles	
Patients with discrete membranes had better results than those with hypertrophic subaortic stenosis.	
ORIGINAL ARTICLES	
Glucagon Enhancement of Cholangiography: A Preliminary Report	84
Carol A. Tabak, MD; Peter L. Tuxen, MD; David L. Bruce, MD; George L. Juler, MD, Irvine, Calif	
Intravenous glucagon enhanced visualization of the biliary tree at operation in this small series of patients.	
Lesser Gastric Curvature and Fundus Myotomy: Experimental and Clinical Studies	88
Horng-Shi Chen, MD; Chun-Sheng Chung, MD; Tain-Cheng Wu, MD, Taipei, Taiwan	
The myotomy provided satisfactory denervation of the parietal cell mass.	
Evaluation and Management of Vascular Injuries of the Extremities	93
James O. Menzoian, MD; Jeanne E. Doyle, RN; Frank W. LoGerfo, MD;	
Nancy Cantelmo, MD; A. Frank Weitzman, MD; Joseph C. Sequiera, MD, Boston	
Arteriography should be performed with injuries in proximity to a major vessel.	
SPECIAL ARTICLE	
Role of Radiation Therapy in Gastrointestinal Cancer	96
Joseph B. Weissberg, MD, New Haven, Conn	
Megavoltage techniques are more penetrating and precise and have increased the role of irradiation.	
CLINICAL NOTES	
Diagnosis of Spigelian Hernia by Computed Tomography	109
Karl J. Papierniak, MD; Bruce Wittenstein, MD; John F. Bartizal, MD;	
James W. Wielgolewski, MD; Leon Love, MD, Maywood, Ill	
Computed tomography confirmed the diagnosis although an ultrasound study was equivocal.	
An Unusual Complication of Bypassed Popliteal Aneurysms	111
J. Bryan Flynn, MD, Gary G. Nicholas, MD, Hershey, Pa	
Bypass and in situ ligation allowed progression of the aneurysms from remaining arterial branches.	
Surgical Resection for Isolated Cardiac Metastases	117
Thanjavur S. Ravikumar, MD; George P. Topulos, MD;	
Robert W. Anderson, MD; Theodor B. Grage, MD, Minneapolis	
Resection of solitary cardiac metastases can be successful if the primary tumor is controlled.	
BRIEF CLINICAL NOTE	
Cervical Dysphagia Lusoria From Vertebral Arterial Compression	125
MAJ Magdiel Trinidad Vasquez, MC, Mexican Army (MexA), Bethesda, Md;	
MAJ Miguel Angel Marquez Garcia, MC, MexA; COL Felipe Santibanes Wollrich, MC, MexA;	
COL Tomas Gomez Maganda, MC, MexA, Mexico City	
Esophageal compression was produced by a tortuous vertebral artery.
