

**ORIGINAL ARTICLES**

- Percutaneous Splenic Artery Occlusion for Portal Hypertension: A New Mechanical Technique for Hypersplenism** ..... 897  
Giuseppe Zannini, MD; Stefano Masciarillo, MD; Giorgio Pagano, MD; Paolo Sangiuolo, MD; Giancarlo Zotti, MD; Vittorio Iaccarino, MD, Naples  
Metallic coils placed in the splenic artery produced a gradual occlusion of the artery.
- Gallstone Pancreatitis: Support for a Flexible Approach** ..... 901  
Lawrence Semel, MD; David Schrieber, MD; David Fromm, MD, Syracuse, NY  
Elective cholecystectomy should be done within a month of the acute episode of pancreatitis unless an emergency operation is necessary.  
Editorial comment by Alexander Walt, MB, ChB, Detroit
- Surgical Management of Small-Bowel Radiation Enteritis** ..... 905  
CPT Keith D. Lillemo, MC, USA; MAJ Robert A. Brigham, MC, USA; LTC John W. Harmon, MC, USA; Marshall M. Feaster, MD; LTC John R. Saunders, MC, USA; COL Juan A. d'Avis, MC, USA, Washington, DC  
Bypass provided adequate palliation with minimal morbidity and mortality as compared with resection.  
Editorial comment by Jerome J. DeCosse, MD, New York
- The Collateral Hemispheric Systolic Pressure** ..... 908  
William Gee, MD; Harry A. Kaupp, MD; Kenneth M. McDonald, MD; James J. Goodreau, MD; Samuel M. Lerner, MD, Allentown, Pa  
Collateral hemispheric BP (carotid stump pressure) is dependent upon the patency of the opposite carotid artery and central BP.
- Percutaneous Endoscopic Gastrostomy: Review of 150 Cases** ..... 913  
Jeffrey L. Ponsky, MD; Michael W. L. Gauderer, MD; Thomas A. Steliato, MD, Cleveland  
This procedure provides a rapid and fairly safe method of creating a feeding gastrostomy.  
Editorial comment by Lloyd M. Nyhus, MD, Chicago
- Metastatic Patterns in Soft-Tissue Sarcomas** ..... 915  
Michael P. Vezeridis, MD; Robert Moore, MS; Constantine P. Karakousis, MD, Buffalo  
Local recurrence is most common and should be treated by wide surgical excision.
- Synthetic Perfusate for Kidney Preservation: Its Use in 72-Hour Preservation of Dog Kidneys** ..... 919  
Robert M. Hoffmann; James H. Southard, PhD; Mary Lutz; Armand Mackety; Folkert O. Belzer, MD, Madison, Wis  
Hydroxyethyl starch replacing albumin and gluconate in place of chloride contributed to excellent perfusion and preservation of canine kidneys.
- Technical Complications of Roux-en-Y Gastrojejunostomy** ..... 922  
David C. Powell, MD, Lexington, Ky; Brack A. Bivins, MD, Detroit; Richard M. Bell, MD, Ward O. Griffen, Jr, MD, PhD, Lexington, Ky  
Complications of Roux-en-Y gastrojejunostomies may mimic those of Billroth II gastrojejunostomies.
- Heparin With and Without Dihydroergotamine in Prevention of Thromboembolic Complications of Major Abdominal Surgery: A Randomized Trial** ..... 926  
Peer Wille-Jørgensen, MD; Johan Kjaergaard, MD, PhD; Jens Thorup, MD; Torben Jørgensen, MD; Jan Fogh, MD, PhD; Ole Munck, MD, PhD; Børn Andersen, MD, PhD, Copenhagen  
There was no clinical advantage in adding dihydroergotamine to low-dose heparin.  
Invited editorial comment by M. David Tilson, MD, New Haven, Conn
- The Role of Splenectomy in Gaucher's Disease** ..... 929  
Eitan Shiloni, MD; Daniel Bitran, MD; Eliezer Rachmilewitz, MD; Arie L. Durst, MD, Jerusalem  
Hypersplenism or mechanical problems caused by an enormous spleen were the reasons for splenectomy.
- Breast Tumor Incidence in Rats After Partial Mammary Resection** ..... 933  
Thomas W. Klamer, MD, William L. Donegan, MD, Milwaukee; Martin H. Max, MD, Norfolk, Va  
The protective effect of resection of breast tissue was transient.

**THE ARCHIVES OF SURGERY** (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**SUBSCRIPTION RATES**—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, one year, \$40; two years, \$76 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US

possessions, one year, \$15; two years, \$28. Address all subscription communication to American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 751-6079.

**CHANGE OF ADDRESS**—POSTMASTER, send address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, including both old and new addresses, and a mailing label taken from the most recent copy. Include your new zip code number.

**ADVERTISING PRINCIPLES:** Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

**Antibiotic Prophylaxis in Surgical Procedures: A Critical Analysis of the Literature** . . . . . 943  
 B. Joseph Guglielmo, PharmD; David C. Hohn, MD; Peter J. Koo, PharmD; Thomas K. Hunt, MD;  
 Richard L. Sweet, MD; John E. Conte, Jr, MD, San Francisco  
 Antibiotic prophylaxis reduces the incidence of wound infection after colorectal surgery  
 and in high-risk patients undergoing gastroduodenal or biliary surgery.

**SYMPOSIUM ON ASSISTED CIRCULATION AND EMERGENCY CORONARY REVASCULARIZATION**

**Introduction to the Symposium on Assisted Circulation and Emergency Coronary Revascularization** . . . . . 956  
 Frank C. Spencer, MD, New York

**Vascular Complications of Intra-aortic Balloon Counterpulsation** . . . . . 957  
 Bruce A. Perler, MD; Charles J. McCabe, MD; William M. Abbott, MD; Mortimer J. Buckley, MD, Boston  
 Arterial trauma, limb ischemia, infection, and wound problems are the major complications of  
 the intra-aortic balloon.

**Vascular Complications Associated With Percutaneous Intra-aortic Balloon Pumping** . . . . . 963  
 George J. Todd, MD; David Bregman, MD; Arthur B. Voorhees, MD; Keith Reemtsma, MD, New York  
 Most complications seemed due to problems of insertion technique.

**'Pulsatile' Left Atrial-Femoral Artery Bypass: A New Method of Preventing Extension of Myocardial Infarction** . . . 965  
 John C. Laschinger, MD, New York; Joseph N. Cunningham, Jr, MD, Brooklyn, NY; Frank P. Catinella, MD;  
 Edmond A. Knopp, MA; Ephraim Glassman, MD; Frank C. Spencer, MD, New York  
 Left heart bypass with diastolic counterpulsation reduced infarct size in experimental animals.

**Coronary Artery Bypass Grafts: Success After Selective Intracoronary Thrombolysis in Acute Myocardial Infarction** . . . . . 970  
 Robert L. Richardson, Jr, MD; Jerry B. Gooch, MD; S. Gwin Robbins, Jr, MD;  
 H. Edward Garrett, MD; J. T. Davis, Jr, MD, Memphis  
 Coronary bypass grafts may be helpful following streptokinase infusion where  
 it has been used early and there is wall motion in the area of the infarct.

**CLINICAL NOTES**

**Staged Correction of Pulmonary Atresia and Absent Right Pulmonary Artery** . . . . . 974  
 J. Scott Rankin, MD; Richard J. Sterba, MD; Joannes H. Karis, MD; H. Newland Oldham, Jr, MD, Durham, NC  
 Complete revascularization of both lungs was accomplished by two operations.

**Heterotopic Pancreas Obstructing the Ampulla of Vater** . . . . . 979  
 Edward H. Laughlin, MD; Mary E. Keown; James E. Jackson, MD, Huntsville, Ala  
 A small hard mass in the duodenal papilla was obstructing the distal common bile duct.

**Conservative Treatment of Bleeding Stomal Varices** . . . . . 981  
 Sharon Grundfest-Broniatowski, MD, Victor Fazio, MB, BS, FRACS, Cleveland  
 Bleeding can usually be controlled by local measures.

**Carcinoma in Choledochal Cysts: Age-Related Incidence** . . . . . 986  
 C. Randle Voyles, MD; Claude Smadja, MD; W. Coupery Shands, MD; Leslie H. Blumgart, MD, London  
 An adult with a choledochal cyst is at higher risk of having or developing a carcinoma.

**BRIEF CLINICAL NOTE**

**The Hubbard Tank as an Adjunct to Drainage in Overwhelming Intra-abdominal Sepsis** . . . . . 989  
 Capt Kevin P. Lally, MC, USAF, Col Michael J. Torma, MC, USAF, Keesler AFB, Miss  
 Twice-daily immersions were associated with improvement and resolution of the peritonitis.

**OBITUARY**
