

EDITORIAL

- Sequencing** 263
Ben Eiseman, MD, Denver

ORIGINAL ARTICLES

- Indocyanine Green: Its Use as an Early Indicator of Hepatic Dysfunction Following Injury in Man** 264
Marc E. Gottlieb, MD, Howard H. Stratton, PhD, Albany, NY;
Jonathan C. Newell, PhD, Troy, NY; Dhiraj M. Shah, MD, Albany, NY
Decreases in indocyanine green clearance preceded increases in serum bilirubin level in injured patients, indicating impaired hepatic function.
- Intraoperative Hemodynamic Investigations During Portacaval Shunt** 269
Kurt W. Steegmüller, MD; Hans-Michael Märklin, MD;
MAJ Harris W. Hollis, Jr, MC, USA, Stuttgart, West Germany
Patients with low portal venous flow did not tolerate shunting better than those with high portal venous flow.
- The Effects of Pulmonary Atelectasis and Reexpansion on Lung Cellular Immune Defenses** 274
Hani Shennib, MD; David S. Mulder, MD; Ray Chu-Jeng Chiu, MD, PhD, Montreal
In early atelectasis there was increased alveolar macrophage phagocytic activity which deteriorated with time.
- Treatment of Renal Artery Embolism** 278
Gary G. Nicholas, MD, William E. DeMuth, Jr, MD, Hershey, Pa
If intra-arterial streptokinase and transluminal angioplasty are not successful, operative embolectomy is recommended.
- Near-Total Gastric Bypass for Morbid Obesity** 282
Charles E. Hartford, MD, Chester, Pa
Gastric bypass with a small proximal gastric pouch and four rows of staples was an effective and safe operation.
- The Effect of a Semiocclusive Dressing on the Microbial Population in Superficial Wounds** 287
Patricia M. Mertz, William H. Eaglstein, MD, Pittsburgh
In wounds covered with a polyurethane dressing, the number of organisms and gram-negative pathogens increased.
Editorial comment by Basil A. Pruitt, Jr, MD, San Antonio, Tex
- Prostaglandins in Commercial Milk Preparations: Their Effect in the Prevention of Stress-Induced Gastric Ulcer** 290
Alberto Materia, MD, Rome; Bernard M. Jaffe, MD, Samuel R. Money, MD, Brooklyn, NY;
Pietro Rossi, MD; Mauro De Marco, MD; Nicola Basso, MD, Rome
Commercial milk preparations contain significant amounts of prostaglandins which could be responsible for some of the protective effects on ulcer disease.
- Aberrant Locations and Complications in Initial Placement of Subclavian Vein Catheters** 293
Dewey J. Conces, Jr, MD, Robert W. Holden, MD, Indianapolis
The high incidence of catheter tip malposition shows the importance of postplacement chest roentgenogram.
- C-Reactive Protein as an Indicator of Infection Relapse in Patients With Abdominal Sepsis** 300
Jerome J. Schentag, PharmD; David O'Keeffe; Mary Marmion; Philip B. Wels, MD, Buffalo
Persistent elevations in CRP concentrations were frequently associated with new or unresolved abdominal bacterial infection.

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

SUBSCRIPTION RATES—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, one year, \$40; two years, \$76 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US

possessions, one year, \$15; two years, \$28. Address all subscription communication to American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 645-4929.

CHANGE OF ADDRESS—POSTMASTER, send address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, including both old and new addresses, and a mailing label taken from the most recent copy. Include your new zip code number.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

Needle Aspiration of Nonfunctioning Parathyroid Cysts	307
Alfred D. Katz, MD, Daniel Dunkleman, MD, Los Angeles	
Aspiration of clear fluid from a neck mass should suggest the need for parathyroid hormone assay of the fluid.	
Sodium Pertechnetate Tc 99m Antral Scan in the Diagnosis of Retained Gastric Antrum	309
Chen-hsen Lee, MD; Fang-ku P'eng, MD; Peter Hsin-hwa Yeh, MD, Taipei, Taiwan, Republic of China	
The scan was positive in 16 of 22 patients with retained gastric antrum after a resection and Billroth II reconstruction.	
Editorial comment by Siroos S. Shirazi, MD, Iowa City	
SPECIAL ARTICLE	
Characteristics and Uses of Biologic Dressings and Skin Substitutes	312
Basil A. Pruitt, Jr, MD, Fort Sam Houston, Tex, Norman S. Levine, MD, Oklahoma City	
Allograft skin is the optimum biologic dressing for temporary wound coverage.	
CLINICAL NOTES	
Follicular Carcinoma of the Thyroid Appearing as an Intraluminal Superior Vena Cava Tumor	323
Dario Perez, MD, Louis Brown, MD, Hartford, Conn	
An intravascular neoplasm in the superior vena cava did not produce obstruction and was found to be a thyroid cancer.	
Masking of Ruptured Abdominal Aortic Aneurysm by Incarcerated Inguinal Hernia	331
John C. Louras, MD, John P. Welch, MD, Hartford, Conn	
An abdominal aortic aneurysm that is rupturing retroperitoneally may produce incarceration of inguinal hernias.	
Danger of Fundoplication After Selective Vagotomy and Antrectomy	334
John J. Gleysteen, MD, Robert E. Condon, MD, Milwaukee	
Perforation and necrosis of the upper portion of the fundus developed where short gastric vessels had been divided.	
Diagnosis and Management of Genitofemoral Neuralgia	339
Bruce A. Harms, MD; David R. DeHaas, Jr, MD; James R. Starling, MD, Madison, Wis	
Genitofemoral neuralgia from nerve entrapment must be distinguished from ilioinguinal nerve entrapment by selective local nerve blocks.	
Adductor Canal Compression Syndrome	345
Michael J. Verta, Jr, MD; Joseph Vitello, MD; Joseph Fuller, MD, Chicago	
Occlusion of the femoral artery in a young man was produced by an abnormal musculotendinous band at the adductor canal.	
BRIEF CLINICAL NOTE	
Use of Intraoperative Ultrasonography to Localize a Hepatic Abscess	347
Paul M. Glen, MD; John Noseworthy, MD; Diane S. Babcock, MD, Cincinnati	
Identification and complete drainage of a hepatic abscess was provided by an ultrasound unit brought into the operative field.	
TECHNIQUE	
A Method of Supporting Venous Tubing in the Neck to Prevent Occlusion of Peritoneovenous Shunts	349
William F. Sindelar, MD, Steven T. Brower, MD, Bethesda, Md	
A helical stainless steel support prevented kinking in four patients
