

## ORIGINAL ARTICLES

- Surgical Complications and Skin Test Reactivity in Patients With Inflammatory Bowel Disease** ..... 885  
Thomas M. Heimann, MD, Arthur H. Aufses, Jr, MD, New York  
Complications in anergic patients were more frequent, required longer hospitalization,  
and more frequent operative correction.
- Percutaneous Drainage of Infected Pancreatic Pseudocysts** ..... 888  
Stephen G. Gerzof, MD; Willard C. Johnson, MD; Alan H. Robbins, MD; Stuart J. Spechler, MD; Donald C. Nabseth, MD, Boston  
Percutaneous drainage guided by computed tomography and/or ultrasound was successful in nine of ten patients.
- Bacteroides Bacteremia: Analysis of 142 Episodes From One Metropolitan Area** ..... 894  
Charles S. Bryan, MD; Kenneth L. Reynolds, DVM, MSPH; Beth Kirkhart, MPH; J. Jeffrey Brown, MD, Columbia, SC  
Specific antimicrobial therapy directed against *Bacteroides fragilis*  
could not be demonstrated to improve clinical outcome.  
Editorial comment by Robert E. Condon, MD, MS, Milwaukee
- Surgical Decision Making and Operative Rates** ..... 899  
Ira M. Rutkow, MD, MPH, DrPH, Barbara H. Starfield, MD, MPH, Baltimore  
Important factors that determine rates of surgery appear to come  
from broad economic and social forces in a given society.
- Inaccuracy of Diagnostic Peritoneal Lavage in Penetrating Colonic Trauma** ..... 906  
Farouk N. Obeid, MD; Victor Sorensen, MD; Gilford Vincent, MD;  
H. Mathilda Horst, MD; Deepak Vji, MD; Brack A. Bivins, MD, Detroit  
Almost one third of patients with colon injuries had a negative lavage,  
and most of those had an isolated colon injury.  
Editorial comment by Donald D. Trunkey, MD, San Francisco
- Combined Preoperative Antibiotic Therapy and Intraoperative Topical  
Povidone-Iodine: Reduction of Wound Sepsis Following Emergency Appendectomy** ..... 909  
David J. Sherlock, FRCS; Anthony Ward, FRCS; Robert T. J. Holl-Allen, MS, FRCS, FACS, Birmingham, England  
Preoperative, single-dose clindamycin and gentamicin with topical  
povidone-iodine reduced wound infections after appendectomy.
- Cardiorespiratory Effects of Pneumatic Trousers in Critically Ill Patients** ..... 912  
Edward Abraham, MD, Los Angeles; Juan C. Cobo, MD;  
Richard D. Bland, MD; William C. Shoemaker, MD, Torrance, Calif  
Pneumatic trousers increased BP through increased peripheral resistance with no autotransfusion effect.  
Editorial comment by Basil A. Pruitt, Jr, MD, San Antonio, Tex
- One Instead of Two Knives for Surgical Incision: Does It  
Increase the Risk of Postoperative Wound Infection?** ..... 917  
Per-Olof Hasselgren, MD, PhD; Elisabeth Hagberg, MD; Harriet Malmer, RN;  
Annette Säljö, RN; Torsten Seeman, MD, PhD, Göteborg, Sweden  
There was no difference in infection rate whether one or two knives were used.  
Editorial comment by Richard L. Simmons, MD, Minneapolis
- Treatment of Severe Leg Wounds With Muscle and Musculocutaneous Flaps** ..... 921  
Vincent N. Zubowicz, MD, John J. Coleman III, MD, Atlanta  
Regional muscle transfer or free microvascular transfer provided  
closure of wounds with major bone and soft-tissue loss.
- Muscle Changes in Venous Insufficiency** ..... 929  
Syde A. Taheri, MD; Reid Heffner, MD; James Williams, MD; Louis Lazar, MD; Steve Elias, MD, Buffalo  
Morphologic evidence of disuse, denervation, and ischemia was found in muscle  
of patients with venous insufficiency.

**THE ARCHIVES OF SURGERY** (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**SUBSCRIPTION RATES**—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$30 for one year, \$56 for two years in the United States and US possessions; all other countries, one year, \$40; two years, \$76 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US possessions, one year, \$15; two years, \$28. Rates for subscriptions for delivery to Bangladesh, India, Japan, Nepal, South Korea, and Sri Lanka are

available through respective exclusive agents. Address all subscription communications to the American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 645-4929.

**CHANGE OF ADDRESS**—POSTMASTER, send all address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, include both old and new addresses, a recent mailing label, and your new zip code.

**ADVERTISING PRINCIPLES:** Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.

<b>Dependent Rubor as a Predictor of Limb Risk in Patients With Claudication</b> .....	<b>932</b>
Robert A. Kozol, MD; Carl E. Bredenberg, MD; John D. Fey, MD; Richard P. Oates, PhD, Syracuse, NY The presence of dependent rubor indicated a greater risk of limb loss than did claudication alone.	
<b>Long-term Hepatic Arterial Infusion Chemotherapy: Anatomic Considerations, Operative Technique, and Treatment Morbidity</b> .....	<b>936</b>
John M. Daly, MD; Nancy Kemeny, MD; Paula Oderman, RN; Jose Botet, MD, New York Randomized trials comparing intrahepatic and systemic chemotherapy should be carried out. Editorial comment by Charles F. McKhann, MD, New Haven, Conn	
<b>Eclectic Drainage of Subphrenic Abscesses</b> .....	<b>942</b>
Alfonso Serrano, MD; Eva Peterson Dahl, MD; Robert H. Rubin, MD; Joseph T. Ferrucci, Jr, MD; Peter R. Mueller, MD; Ronald A. Malt, MD, Boston Percutaneous radiologic drainage is now successful in most patients but extraperitoneal or transperitoneal operative approaches may be necessary in some.	
<b>Endothelial Cell Damage Following Crystalloid Cardioplegic Solution Infusion: Scanning Electron Microscope Study of Coronary Bypass Grafts</b> .....	<b>946</b>
Ari L. J. Harjula, MD; Severi Mattila, MD; Antero Järvinen, MD; Hannu Myllärniemi, MD; Markku Salmenperä, MD, Helsinki Perfusion of a vein graft with cardioplegia solution after distal anastomosis for myocardial protection was associated with loss of endothelium.	
<b>Treatment of the Totally Occluded Carotid Artery</b> .....	<b>952</b>
Blair P. Jordan, MD; David T. Mayschak, MD; M. Wayne Flye, MD, PhD, Galveston, Tex Operative management did not increase survival but did improve the stroke-free interval.	
<b>Rabbit Lung After Acute Smoke Inhalation: Cellular Responses and Scanning Electron Microscopy</b> .....	<b>956</b>
Jacob Loke, MD; Elaine Paul; James A. Virgulto; G. J. Walker Smith, MD, New Haven, Conn Denuded epithelium, matted cilia, and altered alveolar macrophages characterized the response to smoke inhalation.	
<b>CLINICAL NOTES</b>	
<b>Arterial Complications of Total Knee Replacement</b> .....	<b>960</b>
Clyde E. McAuley, MD; David L. Steed, MD; Marshall W. Webster, MD, Pittsburgh Injury may result from intraoperative manipulation, the pneumatic tourniquet, or the popliteal entrapment syndrome.	
<b>Treatment of Inferior Vena Cava Obstruction Producing Budd-Chiari Syndrome</b> .....	<b>965</b>
Shingi Imaoka, MD; Nobuhiro Okamoto, MD; Toru Kobayashi, MD; Kiyoshi Fujimoto, MD; Takeshi Iwanaga, MD, Osaka, Japan Repair of a coarctation of the inferior vena cava and thrombectomy were successful in relieving the obstruction. Editorial comment by William V. McDermott, MD, Boston	
<b>Obstructive Sleep Apnea in the Morbidly Obese: An Indication for Gastric Bypass</b> .....	<b>970</b>
Maj David W. Victor, Jr, MC, USAF; Lt Col Cesar F. Sarmiento, MC, USAF; Maj Miles Yanta, MC, USAF, Scott AFB, Ill; John D. Halverson, MD, St Louis These patients noted specific "trigger" weights below which they had no further apneic periods.	
<b>TECHNIQUE</b>	
<b>End-Loop Ileocolostomy for Massive Trauma to the Right Side of the Colon</b> .....	<b>975</b>
M. Leela Prasad, MD; Russell K. Pearl, MD; Charles P. Orsay, MD; Herand Abcarian, MD, Chicago End-loop ileocolostomy has been used successfully instead of a traditional ileostomy and mucous fistula.	
<b>REGULAR DEPARTMENTS</b>
