

## ORIGINAL ARTICLES

- Multiple-Organ Failure: Generalized Autodestructive Inflammation?** ..... 1109  
R. Jan A. Goris, MD; Theo P. A. te Boekhorst, MD; Johannes K. S. Nuytinck, MD;  
Jules S. F. Gibrère, MD, Nijmegen, the Netherlands  
Massive activation of inflammatory mediators that damage  
endothelium may be as important as sepsis in causing  
multiple-organ failure.
- Sequential Pneumatic Compression for Lymphedema:  
A Controlled Trial** ..... 1116  
David M. Richmand, MD; Thomas F. O'Donnell, Jr, MD;  
Avigdor Zelikovski, MD, Boston  
This device reduced the size of lymphedematous limbs  
rapidly and safely.
- Total Gastrectomy: A 15-Year Experience With Particular Reference  
to the Patient Over 70 Years of Age** ..... 1120  
Reinhard Bittner, MD; Hein Schirrow, MD; Michael Butters, MD;  
R. Roscher, MD; Wolfgang Krautzberger, MD; Wolfgang Oettinger, MD;  
Hans G. Beger, MD, Ulm, West Germany  
Operative mortality rate for total gastrectomy has declined  
significantly in the past 15 years, but long-term survival  
rate for gastric cancer has changed little.
- Peripheral Vascular Trauma From Close-Range Shotgun Injuries** ..... 1126  
Joseph P. Meyer, MD; Leonardo T. Lim, MD; James J. Schuler, MD;  
John J. Castronuovo, MD; Dale Buchbinder, MD; George F. Woelfel, MD;  
D. Preston Flanigan, MD, Chicago  
Principles of management include arterial repair with  
autogenous tissue and repair of deep venous injuries.
- Evaluation of Techniques of Controlling Exocrine Drainage After Segmental  
Pancreatectomy in Dogs: Implications for Pancreatic Transplantation** ..... 1132  
Dai D. Nghiem, MD; Richard H. Pitzen, MD; Robert J. Corry, MD, Iowa City  
Pancreatic duct to jejunum anastomosis was the preferred  
method to preserve pancreatic function and structure.

The ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**SUBSCRIPTION RATES**—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$36 for one year, \$65 for two years in the United States and US possessions; all other countries, one year, \$46; two years, \$85 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US possessions, one year, \$18; two years, \$32.50. Rates for subscriptions for delivery to Bangladesh, India, Japan, Nepal, South Korea, and Sri Lanka are available through respective exclusive agents. Address all subscription

communications to the American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 280-7154.

**CHANGE OF ADDRESS**—POSTMASTER, send all address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, include both old and new addresses, a recent mailing label, and your new zip code.

**ADVERTISING PRINCIPLES:** Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request. The appearance of advertising in AMA publications is not an AMA guarantee or endorsement of the product or the claims made for the product by the manufacturer.

<b>Aneurysms of the Abdominal Aorta: Incidence in Blacks and Whites in North Carolina</b> .....	1138
George Johnson, Jr, MD; Andrea Avery, MD; E. Gary McDougal, MD; Steven J. Burnham, MD; Blair A. Keagy, MD, Chapel Hill, NC There is an increased incidence of aneurysms in white males.	
<b>Pentoxifylline In the Treatment of Experimental Peritonitis in Rats</b> .....	1141
Georges E. Chalkiadakis, MD; Alkiviadis Kostakis, MD; Panayotis E. Karayannacos, MD; Maria E. Chalkiadakis, MSc; Stella Sgouromali, MD; Helen Giamarellou, MD; Gregory D. Skalkeas, MD, Athens, Greece Pentoxifylline, a methylxanthine derivative, reduces the development of adhesions and abscesses and prolongs survival in experimental peritonitis.	
<b>Early Local Complications From Intestinal Stomas</b> .....	1145
Russell K. Pearl, MD; M. Leela Prasad, MD; Charles P. Orsay, MD; Herand Abcarian, MD; Ana B. Tan, RN, ET; Maryann T. Melzl, RN, ET, Chicago Technical guidelines for stomal construction are presented to help minimize complications that occurred in one fourth of patients in this series.	
<b>An In Situ Evaluation of Distal Splenic Arteriovenous Fistula on Pancreas Function in an Isolated Pancreas Segment</b> .....	1148
Paul J. Garvin, MD; Marco A. Castaneda, MD; Michael L. Niehoff, PAC MS(R); Keith A. Mauller, PAC; John J. Brems, MD, St Louis Pancreatic function in an isolated segment was not improved by creation of a splenic arteriovenous fistula.	
<b>Late Relapse From Cutaneous Stage I Malignant Melanoma</b> .....	1155
Helen M. Shaw, PhD, Camperdown, Australia; Craig W. Beattie, PhD, Chicago; William H. McCarthy, FRACS, MEd, Gerald W. Milton, FRCS, FRACS, Camperdown, Australia None of the usual factors of prognostic importance proved useful in predicting recurrence after ten years.	
<b>Can General Surgery Improve the Outcome of the Head-Injury Victim in Rural America? A Review of the Experience in American Samoa</b> .....	1163
William P. Schechter, MD, Eric Peper, MD, San Francisco; Vaiula Tuatoo, MO, Pago Pago, American Samoa Insertion of burr holes in head injury patients who were unconscious or obtunded with localizing signs was safe and effective in hospitals in remote areas.	
<b>Epiplc Disorders: Conditions of the Epiplc Appendages</b> .....	1167
Daniel H. Carmichael, MD, Claude H. Organ, Jr, MD, Oklahoma City Epiplcitis may represent the sole cause of abdominal pain if exploration is otherwise negative.	
<b>CLINICAL NOTES</b>	
<b>Popliteal Vein Aneurysm Causing Pulmonary Embolus</b> .....	1173
James J. Gallagher, MD, Hartford, Conn, John H. Hageman, MD, Detroit This unusual cause of pulmonary embolism can be detected only by venography.	
<b>Squamous Cell Carcinoma of the Cecum</b> .....	1176
Nicholas A. Balsano, MD, Bronx, NY Operative trauma followed by a chronic fistula is postulated as a cause of squamous cell carcinoma of the cecum.	

Continued on page 1100.

<b>Pancreatic Islet Cell Carcinoma With Gastrin and Vasoactive Intestinal Polypeptide Production</b> .....	<b>1178</b>
Thomas P. Barragry, MD; Mark R. Wick, MD; John P. Delaney, MD, Minneapolis	
This tumor responded to chemotherapy with streptozocin and fluorouracil.	
<b>Three Synchronous Multiorgan Primary Cancers: All Stage I</b> .....	<b>1182</b>
Subhash Patel, MD; Antonio E. Alfonso, MD; James Landis, MD;	
Jorge Suarez, MD, Brooklyn, NY	
Stage I cancers of the lung, breast, and stomach were	
diagnosed simultaneously and successfully treated.	
Editorial Comment by LaSalle D. Leffall, Jr, MD, Washington, DC	
<b>Brachial Plexus Injuries With Causalgia Resulting From Transaxillary Rib Resection</b> .....	<b>1189</b>
Steven H. Horowitz, MD, New Hyde Park, NY	
The transaxillary approach to resection of the first rib	
resulted in severe and permanent brachial plexus injury	
in four patients.	
Invited Editorial Comment by David B. Roos, MD, Denver	
<b>Bile Duct Varices</b> .....	<b>1194</b>
Richard Spira, MD, Miami; Warren C. Widrich, MD, Boston;	
Kenneth D. Keusch, MD, Miami; Benjamin T. Jackson, MD, Providence, RI;	
Howard E. Katzman, MD, Abilio A. Coello, MD, Miami	
Varices on the common bile duct were found in two	
patients with portal vein occlusion.	

## SPECIAL ARTICLE

<b>Operations for Portal Hypertension in China</b> .....	<b>1197</b>
Huang Yan-Ting, MD, Beijing, People's Republic of China	
Portal hypertension in China is due primarily to	
postnecrotic cirrhosis or schistosomiasis.	
Invited Editorial Comment by William V. McDermott, MD, Boston	

## TECHNIQUE

<b>Ultrasonic Fragmentation: A New Technique for Mucosal Proctectomy</b> .....	<b>1200</b>
Tomas M. Heimann, MD; Robert J. Kurtz, MD;	
Arthur H. Aufses, Jr, MD, New York	
This method seems to be particularly useful in patients in	
whom separation of the rectal mucosa is difficult.
