

Copyright 1986 by the AMERICAN MEDICAL ASSOCIATION

Official Publication of the Western Surgical Association,  
Surgical Infection Society, New England Surgical Society,  
Society of Surgical Oncology**PAPERS READ BEFORE THE FIFTH ANNUAL MEETING OF THE SURGICAL  
INFECTION SOCIETY, NEW ORLEANS, APRIL 29 TO APRIL 30, 1985—PART I****Host-Opportunist Interactions in Surgical Infection:**

- Presidential Address** ..... 13  
COL Basil A. Pruitt, Jr, MC, USA, Fort Sam Houston, Tex

**Efficacy of Short-Course Antibiotic Prophylaxis After Penetrating  
Intestinal Injury: A Prospective Randomized Trial** ..... 23

E. Patchen Dellinger, MD; Margaret J. Wertz, MN, RN;  
E. Stan Lennard, MD, ScD; Michael R. Oreskovich, MD, Seattle  
A 12-hour course of antibiotics was as effective as a  
five-day course and cost less.

**Effects of Environment on Infection in Burn Patients** ..... 31

LTC Khan Z. Shirani, MC, USA; Albert T. McManus, PhD;  
LTC George M. Vaughan, MC, USA; COL William F. McManus, MC, USA;  
COL Basil A. Pruitt, Jr, MC, USA; Arthur D. Mason, Jr, MD, Fort Sam Houston, Tex  
Reduction of infection and improved survival occurred  
in burn patients treated in a renovated burn unit with  
separate bed enclosures.

**Susceptibility to Bacterial Sepsis: Accurate Measurement by the  
Delayed-Type Hypersensitivity Skin Test Score** ..... 37

Jean I. Tchervenkov, MD; Esa Diano; Jonathan L. Meakins, MD, FRCSC;  
Nicolas V. Christou, MD, FRCSC, Montreal  
After burn injury in animals, delayed hypersensitivity  
skin test results correlated inversely with the size of  
bacterial skin lesions.

**Radiologic Diagnosis of an Intra-abdominal Abscess:****Do Multiple Tests Help?** ..... 41

Philip B. Dobrin, MD, PhD, Maywood, Ill; Patricia Heer Gully, RN, Hines, Ill;  
Herbert B. Greenlee, MD; Robert J. Freeark, MD; Rogelio Moncada, MD;  
Robert Churchill, MD; Carlos Reynes, MD; Robert Henkin, MD, Maywood, Ill  
Only the presence of pain and tenderness differentiated  
patients with and without abscesses, but the most accurate  
study was the computed tomographic scan.

The **ARCHIVES OF SURGERY** (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**SUBSCRIPTION RATES**—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$38 for one year, \$68 for two years in the United States and US possessions; all other countries, one year, \$48; two years, \$88 (add \$10 surcharge to each one-year subscription, \$20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US possessions, one year, \$19; two years, \$34. Rates for subscriptions for delivery to Australia, Bangladesh, India, Japan, Nepal, New Zealand, South Korea, and Sri Lanka are available through respective exclusive agents.

Address all subscription communications to the American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 280-7154.

**CHANGE OF ADDRESS**—POSTMASTER, send all address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, include both old and new addresses, a recent mailing label, and your new zip code.

**ADVERTISING PRINCIPLES:** Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request. The appearance of advertising in AMA publications is not an AMA guarantee or endorsement of the product or the claims made for the product by the manufacturer.

**Muramyl Dipeptide Enhances Survival From Experimental Peritonitis** ..... 47  
 Gregory L. Brown, MD; Hugh Foshee; James Pietsch;  
 Hiram C. Polk, Jr, MD, Louisville  
 Mice that had cecal ligation alone or with puncture  
 had better survival when a nonspecific immunostimulating  
 agent was given.

**Effect of Transfusion on Immune Function in a Traumatized  
 Animal Model** ..... 50  
 J. Paul Waymack, MD; Jeanine Rapien; Dru Garnett, MLT-ASCP;  
 James S. Tweddell, MD; J. Wesley Alexander, MD, ScD, Cincinnati  
 Blood transfusions increased the immunosuppression of  
 a burn in this animal model.

**Immunotherapy of Gram-negative Bacterial Sepsis: A Single Murine  
 Monoclonal Antibody Provides Cross-Genera Protection** ..... 58  
 David L. Dunn, MD, PhD; David C. Ewald; Naresh Chandan, MS;  
 Frank B. Cerra, MD, Minneapolis  
 A single monoclonal antibody with anti-lipid A specificity  
 was protective in mice against certain bacteremias and  
 most endotoxemias.

**In Vitro Reversal of Cardiac Deterioration in Septic Shock With  
 Tetraethylammonium Chloride** ..... 65  
 James E. DeMeules, MD, Burlington, Vt  
 This drug improved peak tension and velocities of  
 contraction and relaxation in papillary muscle of  
 both septic and normal animals.

**Effect of Antibiotics and Sedatives on Normal Neutrophil Nicotinamide-  
 Adenine Dinucleotide Phosphate-Reduced Oxidase Activity** ..... 73  
 Byung C. Moon, MD; Murray J. Girotti, MD; Simon F. G. Wren, MD;  
 Richard Dawson; Depinder Brar, Kingston, Ontario  
 Activity of an oxidase enzyme of leukocytes involved  
 in the respiratory burst during phagocytosis is decreased  
 by common antibiotics and sedatives.

**Degranulation Inhibition: A Potential Mechanism for Control of  
 Neutrophil Superoxide Production in Sepsis** ..... 77  
 Joseph S. Solomkin, MD; Julia K. Brodt;  
 Frank P. Zemlan, PhD, Cincinnati  
 Clindamycin produced inhibition of degranulation  
 and superoxide formation by stimulated neutrophils.

**A *Bacteroides* By-product Inhibits Human Polymorphonuclear  
 Leukocyte Function** ..... 82  
 Ori D. Rotstein, MD; Timothy L. Pruett, MD; Jennifer J. Sorenson;  
 Vance D. Fiegel; Robert D. Nelson, PhD; Richard L. Simmons, MD, Minneapolis  
*Bacteroides fragilis* and *Bacteroides distasonis*  
 impaired polymorphonuclear cell migration.

Continued on page 6.

<b>Mucin Production by <i>Staphylococcus epidermidis</i>: A Virulence Factor Promoting Adherence to Vascular Grafts</b> .....	<b>89</b>
David D. Schmitt, MD; Dennis F. Bandyk, MD; Arch J. Pequet, MD; Mark A. Malangoni, MD; Jonathan B. Towne, MD, Milwaukee Production of mucin by <i>Staphylococcus epidermidis</i> increased the adherence of organisms to prosthetic arterial grafts.	
<b>Thermal Injury Promotes Bacterial Translocation From the Gastrointestinal Tract in Mice With Impaired T-Cell–Mediated Immunity</b> .....	<b>97</b>
Edwin A. Deitch, MD; John Winterton; Rodney Berg, PhD, Shreveport, La Other host defense systems, in addition to T-cell–mediated immunity, seem involved in bacterial translocation after thermal injury.	
<b>Intestinal Bacteria Translocate Into Experimental Intra-abdominal Abscesses</b> .....	<b>102</b>
Carol L. Wells, PhD; Ori D. Rotstein, MD; Timothy L. Pruett, MD; Richard L. Simmons, MD, Minneapolis An animal model was developed that demonstrated secondary colonization of intra-abdominal abscesses by intestinal bacteria.	
<b>Abnormalities of Antibody Production After Thermal Injury: An Association With Reduced Interleukin 2 Production</b> .....	<b>108</b>
J. Jeremy Wood, MA, FRCS(Eng); John B. O'Mahony, MB, FRCS(I); Mary L. Rodrick, PhD; Roger Eaton, PhD; Robert H. Demling, MD; John A. Mannick, MD, Boston Reduced interleukin-2 production with less T-cell help may be responsible for a reduced and unsustained antibody response in patients with burn injuries.	
<b>Prevention of Posttraumatic Alterations in Lymphocyte Subpopulations in Mice by Immunomodulating Drugs</b> .....	<b>116</b>
Ramón Zapata-Sirvent, MD, John F. Hansbrough, MD, San Diego; Edward J. Bartle, MD, Denver Posttraumatic lymphocyte alterations were prevented by ibuprofen, cimetidine, or cyclophosphamide.
