

## EDITORIALS

- Mammary Carcinoma and Radiation Therapy** ..... 753  
Nathan B. Friedman, MD, Los Angeles
- Conservative Surgery and Radiation Therapy for Early Breast Cancer** ..... 754  
Jay R. Harris, MD; Stuart J. Schnitt, MD; James L. Connolly, MD; William Silen, MD, Boston

## ORIGINAL ARTICLES

- Resection of Hepatocellular Carcinoma After Transcatheter Arterial Embolization: Reevaluation of the Advantages and Disadvantages of Preoperative Embolization** ..... 756  
Tsann-Long Hwang, MD; Miin-Fu Chen, MD; Tse-Yu Lee, MD; Tong-Jong Chen, MD;  
Deng-Yn Lin, MD; Yun-Fan Liaw, MD, Taipei, Taiwan, Republic of China  
Transcatheter arterial embolization helped control bleeding from ruptured tumors but was not helpful before elective resections.
- Branched-Chain Amino Acid Administration in Surgical Patients: Effects on Amino Acid and Fuel Substrate Profiles** ..... 760  
Sukumar P. Desai, MD; Bruce R. Bistrian, MD, PhD; John D. Palombo; Lyle L. Moldawer; George L. Blackburn, MD, PhD, Boston  
Dextrose-free branched-chain amino acid solutions as the only nitrogen and energy source after operation were safe and did not alter most metabolic-free substrate profiles.
- Low-Dose Glucose Infusion in Patients Who Have Undergone Surgery: Possible Cause of a Muscular Energy Deficit** ..... 765  
Bernulf Günther, MD; Karl-Walter Jauch, MD; Wolfgang Hartl, MD;  
Matthias Wicklmayr, MD; Günther Dietze, MD; Georg Heberer, MD, Munich  
Replacement of glucose infusions by alternative substrates would help avoid this peripheral energy deficit.  
Invited Editorial Comment by Douglas W. Wilmore, MD, Boston
- Experimental Evaluation of Staple Lines in Gastric Surgery** ..... 772  
Michael K. Bluett, MD; Dean A. Healy, MD; George C. Kalemeris, MD; J. Patrick O'Leary, MD, Nashville, Tenn  
A double application of a stapling device offered optimum strength in both short- and long-term studies.  
Invited Editorial Comment by Mark M. Ravitch, MD, Pittsburgh
- Culture of Abdominal Aortic Aneurysm Contents: An Additional Series** ..... 777  
John A. Schwartz, MD, Chapel Hill, NC; Thomas W. Powell, MD, Concord, NC;  
Steven J. Burnham, MD, George Johnson, Jr, MD, Chapel Hill, NC  
Positive bacterial cultures were obtained from the plaque or thrombus in 10% of aneurysms.  
Editorial Comment by Calvin B. Ernst, MD, Detroit
- Late Complications After Gastric Reservoir Reduction With External Wrap** ..... 781  
Steven A. Curley, MD; William Weaver, MD; Lawrence H. Wilkinson, MD; Gerald B. Demarest, MD, Albuquerque  
Gastric perforation and functional gastroesophageal obstruction occur frequently after gastric wrapping.  
Editorial Comment by Donald L. Kaminski, MD, St Louis
- Metabolic and Immune Effects of Dietary Arginine Supplementation After Burn** ..... 784  
Hideaki Saito, MD; Orrawin Trocki, RD, MS; Shi-liang Wang, MD; Sara J. Gonce;  
Stephen N. Joffe, MD; J. Wesley Alexander, MD, ScD, Cincinnati  
Oral dietary arginine supplementation up to 2% of energy intake was helpful in burned animals.
- Dextrose Administration Exacerbates Acute Renal Ischemic Damage in Anesthetized Dogs** ..... 790  
Mohammed Moursi; Catherine L. Rising; Gerald B. Zelenock, MD; Louis G. D'Alecy, DMD, PhD, Ann Arbor, Mich  
Ischemia combined with an increased glucose load was associated with impaired renal function.  
Invited Editorial Comment by William W. Monafó, MD, St Louis

The ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

**SUBSCRIPTION RATES**—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, \$1.50 included in the annual membership dues; for nonmembers, \$38 for one year, \$68 for two years in the United States and US possessions; all other countries, one year, \$50; two years, \$92 (add \$15 surcharge to each one-year subscription, \$30 for two years for air delivery to the United Kingdom, Europe, Bangladesh, India, Nepal, or Sri Lanka). Special yearly rates to residents and medical students in the United States and US possessions, one year, \$19; two years, \$34. Rates for subscriptions for delivery to Australia, Japan, New Zealand, or South Korea are available through respective exclusive agents. Address all

subscription communications to the American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 280-7154.

**CHANGE OF ADDRESS**—POSTMASTER, send all address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, include both old and new addresses, a recent mailing label, and your new zip code.

**ADVERTISING PRINCIPLES**: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request. The appearance of advertising in AMA publications is not an AMA guarantee or endorsement of the product or the claims made for the product by the manufacturer.

**CONTENTS—Continued**

**Asymptomatic Carotid Lesions After Endarterectomy of Contralateral Carotid Artery:  
Five-Year Follow-up Study and Prognosis** ..... 795  
Torben Schroeder, MD; Ulf J. V. Helgstrand, MD, PhD; Marianne R. Egeblad, MD; Hans C. Engell, MD, PhD, Copenhagen  
The risk of stroke without warning was not high enough to warrant prophylactic endarterectomy for asymptomatic carotid lesions.  
Editorial Comment by Calvin B. Ernst, MD, Detroit

**Localization and Excision of Nonpalpable Breast Lesions:  
A Surgical Evaluation of Three Methods** ..... 802  
John G. M. Tinnemans, MD; Theo Wobbes, MD, PhD; Jan H. C. L. Hendriks, MD, PhD; Rigtje F. van der Sluis, MD;  
Evert-Jan C. Lubbers, MD, PhD; Herman H. M. de Boer, MD, PhD, Nijmegen, the Netherlands  
Persistence of a suspicious lesion on follow-up mammogram indicated the need for reoperation.  
Editorial Comment by LaSalle D. Leffall, Jr, MD, Washington, DC

**The Influence of Anesthetic Choice on Carotid Endarterectomy Outcome** ..... 807  
John D. Corson, MB, ChB, FRCS(Eng); Benjamin B. Chang, MD; Dhiraj M. Shah, MD; Robert P. Leather, MD;  
Bernard M. DeLeo, MD; Allastair M. Karmody, MB, ChB, ChM, FRCS(Eng)(Ed), Albany, NY  
In this retrospective review, strokes occurred more frequently when general anesthesia was selected by the patient and physician.

**Hepatic Microsomal Adenosine Triphosphatase and Mitochondrial Function:  
Response to Cold and Warm Ischemia** ..... 813  
Michael C. Townsend, MD; Michael D. Yokum; Donald E. Fry, MD, Cleveland  
The deleterious aspects of warm ischemia and cytoprotection of hypothermia are emphasized.

**CLINICAL NOTES**

**Duplication of the Appendix Mimicking Adenocarcinoma of the Colon** ..... 817  
Michael K. Bluett, MD; Susan A. Halter, MD; Kevin E. Salhany, MD; J. Patrick O'Leary, MD, Nashville, Tenn  
The duplication caused a constricting lesion of the colon.

**'Kissing Lesions' of the Thorax and Upper Extremity** ..... 821  
Dean S. Louis, MD; Mark R. Wilson, MD; Fred M. Hankin, MD, Ann Arbor  
Compression of an upper extremity beneath the body of a comatose individual can produce a crushing injury.

**Multiple Mesenteric Aneurysms Complicating Subacute Bacterial Endocarditis** ..... 823  
Michael F. Trevisani, MD; Michael A. Ricci, MD; Robert M. Michaels, MD; Kenneth K. Meyer, MD, Sayre, Pa  
Rupture of the aneurysms required operative therapy.

**Pyloric Stenosis—A Timed Perspective** ..... 825  
E. Stevers Golladay, MD; J. Ralph Broadwater, MD; Daniel L. Mollitt, MD, Little Rock, Ark  
Preoperative and postoperative nasogastric drainage helped in the treatment of these patients.

**Delayed Gastric Emptying After Palliative Gastrojejunostomy for Carcinoma of the Pancreas** ..... 827  
Raymond C. Doberneck, MD, PhD, George A. Berndt, MD, Albuquerque  
Delayed gastric emptying was a frequent and serious problem after gastrojejunostomy in patients with unresectable pancreatic cancer.  
Editorial Comment by John L. Cameron, MD, Baltimore

**BRIEF CLINICAL NOTES**

**Acute Gastric Necrosis in Anorexia Nervosa and Bulimia: Two Case Reports** ..... 830  
Rashid A. Abdu, MD; Daniel Garritano, MD; Oneil Culver, MD, Youngstown, Ohio  
Anorexia nervosa with episodic overeating or bulimia can lead to gastric distention and necrosis.

**Intraoperative Cardiovascular Crisis Caused by Glucagon** ..... 833  
Robert T. Schorr, MD, Stephen N. Rogers, MD, La Mesa, Calif  
Glucagon injected to relax smooth muscle may provoke catecholamine release from an unrecognized pheochromocytoma.

**Insulinoma and Gastrinoma in Wermer's Disease (MEN I)** ..... 835  
Armando Sardi, MD, John A. Singer, MD, Baltimore  
This patient had parathyroid hyperplasia followed by an insulinoma and then multiple gastrinomas.

**TECHNIQUES**

**Pouch and Roux-en-Y Reconstruction After Gastrectomy** ..... 837  
Arnulf Thiede, MD, Kiel, Federal Republic of Germany; Karl Hermann Fuchs, MD, Omaha;  
Horst Hamelman, MD, Kiel, Federal Republic of Germany  
Reconstruction after total gastrectomy was accomplished using a combination of straight and circular staplers.

**A Technical Modification of Median Sternotomy to Eliminate Subxiphoid Incisional Hernias** ..... 843  
Hendrick B. Barner, MD, St Louis  
No hernias developed when the xiphoid and linea alba were left intact.

**Branched Nonreversed Saphenous Vein Graft for Complex Renal Artery Stenosis** ..... 846  
Anthony D. Whittemore, MD; Robert W. Thompson, MD; Steven T. Ruby, MD; John A. Mannick, MD, Boston  
Incision of venous valves allows use of a nonreversed branched vein graft to multiple distal sites.

**REGULAR DEPARTMENTS**

**Books** ..... 849
